FROM NOW UNTIL JULY 1ST, NOT LATER

HERE is no more useful garden material than what is known as Dutch Bulbs—Hyacinths, Tulips, Narcissi, Crocuses, etc. They give, for a small outlay of time and money, an abundance of flowers in the house from December until April, and in the garden from almost before the snow is off the ground in the spring until the middle of May. These bulbs are grown almost exclusively in Holland, and in enormous quantities, where they are sold at very low prices. Usually they pass through the hands of two dealers, and more than double in price before reaching the retail buyer in America.

By ordering from us *now*, instead of waiting to buy from the local dealer in the fall, you make a large saving in cost, get a superior quality of bulbs not usually to be obtained at any price in this country, and have a much larger list of varieties to select from. Our orders are selected and packed in Holland, and are delivered to our customers immediately upon their arrival from Holland, perfectly fresh, and in the best possible condition.

If you wish to take advantage of our very *low prices*, we must have your order *not later than July 1st*, as we import bulbs to order only. They need not be paid for until after delivery; but, if you have had no account with us, please send references with your order. There are thousands of growers of bulbs in Holland, but the best quality is grown by specialists who make a specialty of certain varieties. Our long experience, and our frequent visits to Holland, enable us to know the best growers of the various varieties, and our customers get the best quality of all varieties, which cannot be obtained from any one grower in Holland.

Terms of Payment, Etc.

PLEASE READ BEFORE ORDERING

HYACINTHS, TULIPS, CROCUSES, Etc.—The prices quoted in this list on all Dutch Bulbs, Bermuda Lilies and Roman Hyacinths are for advance orders, which must reach us not later than July 1, 1914. To make these very low prices, we must have our orders in advance, as we cannot take any risk of having stock remain unsold on our hands. The bulbs will be delivered at the proper season, and need not be paid for until after delivery. Prices quoted include duty and all charges except freight or expressage from Pittsburg. On small lots of bulbs sent by mail, postage will be charged at cost.

TIME OF DELIVERY.—Bermuda Lilies arrive in August; Roman Hyacinths, Freesias, Candidum Lilies, the latter part of August or early in September; Dutch Bulbs, Hyacinths, Tulips, etc., about October 1 to 10. In ordering, please state whether you wish bulbs shipped as they arrive, or all in one shipment, about October 1 to 10. Dutch Bulbs may be sent safely by freight, but we advise shipping bulbs or plants that arrive in November by express. In absence of instructions we will send all bulbs in one shipment, except Japanese Lilies and Lily-of-the-Valley, which will be shipped upon arrival, in October and November. Some dealers make a point of offering Dutch Bulbs for sale very early in the fall, which often necessitates the shipping of bulbs from Holland before they are properly ripened—a frequent cause of failure to bloom. We do not usually try to deliver Dutch Bulbs before October 1, which is quite early enough.

SHIPPING INSTRUCTIONS.—Please send full shipping instructions. State whether goods are to be shipped by freight or express, and by what route. In the absence of instructions, we will ship by whatever method and route we think best.

TERMS OF PAYMENT.—Our terms of payment are invariably cash on delivery, which does not mean that we ship C. O. D., as we will not do so under any circumstances. We deliver the goods and mail bills at the same time, and expect payment within a few days. People unknown to us will please send references with their orders. Those who wish to send cash in advance with their orders will be allowed a discount of five per cent from the prices quoted on this list on all orders received before July 1, 1914.

GUARANTEES.—We guarantee all trees, shrubs, plants and bulbs furnished by us to be first-class, true to name and delivered in good condition when shipped by express. Stock is shipped by freight at purchaser's risk, and customers must make claim on railroad companies for any loss caused by delay.

We do not guarantee stock to grow, or results in any way. No complaint will be entertained that is not made immediately upon receipt of stock.

There are so many causes for failure over which we have no control that we can assume no responsibility after stock is delivered in good order. Poor soil, unfavorable weather, ignorant or careless culture, all contribute to failure, and all are beyond our control.

EARLY ORDERS.—The earlier orders are given, the better we can have them filled. Some of our customers are now giving us orders to be delivered next spring. Our representative usually sails for Europe early in July, and personally selects the stock for all import orders received by July 1.

CLUB ORDERS.—No smaller quantities will be supplied than those quoted in the list, except that six bulbs will be furnished at dozen price, fifty at hundred price and five hundred at thousand price; but it is suggested, where these quantities are too large, that two or three friends or neighbors could combine their orders with advantage, and save transportation charges.

EXPERIMENTAL GROUNDS.—For our own information and for the benefit of our customers, we have established experimental grounds where all promising novelties are tested. We also grow all varieties of trees, shrubs and hardy plants generally in the trade, so that we can have full information as to their respective merits.

PARCEL POST.—Bulbs and plants can now be sent by Parcel Post, but, except for very small parcels, bulbs and plants can be sent better and cheaper by express. For instance, the Parcel-Post rate on a ten-pound package to California is \$1.20. The express companies will carry it for 87 cents, and pay for it if they lose it. When it is to the advantage of our customer to send packages by Parcel Post, we do so, and send a bill for the postage, as our prices do not include delivery. Express rates have been greatly reduced and made uniform, so that it no longer costs more to ship over the lines of two or more companies than it does over one.

Complaints

We receive a few complaints from customers to whom we have furnished bulbs. There were less than one for each thousand orders filled; we suppose we shouldn't worry about it, but we do, for the reason that with few exceptions none of these complaints are justified. One lady writes, in December, that her Dutch Hyacinths won't bloom and are a failure. Of course Dutch Hyacinths won't bloom in December, and we distinctly say so in our catalogue and in the printed cultural directions that are sent out with each shipment of bulbs. Another lady says that Hyacinths brought into bloom in March were quite unsatisfactory. Referring to her order, we found she had ordered one hundred of the cheapest mixed Hyacinths for outdoor planting, and we are emphatic as can be in our catalogue that these are not fit for pot-culture. We try to make it perfectly clear what bulbs are suitable for forcing and when they can be forced, but in spite of this some people try to do all sorts of impossible things and then blame their failures on the quality of the bulbs furnished.

The complaint that hurts worst of all is that our claim that we make a considerable saving in cost for our customers is not true; and a few have written to say that they could buy bulbs from other dealers at about the same price as ours, and then quoted the names of two or three dealers who are notorious for buying the cheapest grade of bulbs in Holland. We have never claimed that we could sell bulbs of superlative quality for less than any dealer could sell any quality. What we do claim is that we sell the highest grade of bulbs for less than they can be obtained elsewhere. When we say bulbs of the highest grade we do not include bulbs in mixtures. The highest grade bulbs are never sold in mixtures. The comparison of catalogue prices is no test; but the comparison of bulbs and results are the real tests, and the tests we are anxious to have people make. A great many people must make these tests—it is the only explanation of our greatly increasing bulb-business and of the same people buying our bulbs year after year.

We try to be very explicit in our terms published on opposite page. Notice that the only guarantee we give is quality and trueness of names. We don't guarantee results,—and just consider for a moment what such a guarantee means. It means the guaranteeing of all kinds of gardening, all kinds of climates, all kinds of soils and all kinds of weather. But the great majority of our customers do get results and our business grows apace.

Our order-fillers are not quite infallible and make mistakes occasionally. We are only too happy to rectify these when notified.

Keep a Copy of Your Order

It is a very good plan to copy your order into this catalogue and then carefully save the catalogue. Lots of people forget what they order and many write to ask why their orders have not been delivered long before the bulbs have arrived from Europe or Japan. Our catalogues give the approximate time of delivery of all bulbs. Reference to catalogue would often save unnecessary correspondence and unnecessary correspondence

is very trying during our delivery season, when our forces are working day and night. Remember that the nurseryman has to make delivery for his entire year's business in about four months, and that is no easy task.

Bulb Tests

We make annual tests of the bulbs we import both outdoors and in the greenhouse. We also test the bulbs of other importers; and when we say that our bulbs are very superior we know exactly what we are talking about. The grading of bulbs in Holland is not sufficiently understood in this country. Dutch growers offer named Hyacinths in four sizes, and their second size is usually sold for first size in this country. Our first-sized Hyacinths are the largest and best obtainable, and our customers carry off the first prizes at the exhibitions with them. The same is true of Narcissi. Our Emperor and Empress Narcissi bulbs are more than twice the size of those usually sold, and produce a splendid crop of immense, perfect blooms.

Bulb Novelties

From the immense list of new varieties of Bulbs offered in Holland and England, we have selected the following as being sufficiently tested to establish their merit. Many new varieties of Narcissi are offered in England at prices ranging from ten to two hundred and fifty dollars each. We do not believe there is any demand for such high-priced Bulbs outside of England. The varieties offered below are sufficiently high-priced, and, if you do not wish to pay such prices, you are consoled by the fact that they will get much cheaper in the future, and that such splendid things as Empress and Emperor Narcissi were once high-priced Novelties.

SINGLE EARLY TULIPS

	Each	Per doz.	100
BLUSHING BRIDE. Very bright pink; of striking beauty and perfect shape; early forcer.....	\$0 07	\$0 75	\$5 00
BRILLIANT STAR. Similar to Vermilion Brilliant, but much larger; splendid forcer.	12	1 25	8 00
BUTTERCUP. Earliest of all the yellows; large, perfect, cup-shaped flowers; dark yellow.....	07	70	5 00
JENNY. Beautiful, velvety carmine-rose; very early. A splendid variety.....	05	50	3 00
LA REINE MAXIMUS. Same as La Reine but twice the size; valuable novelty.....	07	75	4 50
PRESIDENT TAFT. The improved pink Joost Van Vondel; clear, bright pink; a flower of great beauty that keeps unusually well..	20	1 75	12 00
ROOS VAN DEKEMA. Most beautiful, dark pink, enormous flower; dwarf.....	07	75	4 75
WHITE BEAUTY. A pure white sport of the great Pink Beauty.....	40		

DOUBLE EARLY TULIPS

	Each	Per doz.	100
GOLDEN KING. Pure yellow; a very valuable novelty; very beautiful.....	\$0 18	\$1 75	\$14 00
PEACH BLOSSOM. Grand novelty; the most beautiful, double, dark pink Tulip in existence.....	2 00		
SCHOONOORD. A snow-white sport of Murillo; the best double white.....	07	65	4 50

COTTAGE or MAY-FLOWERING TULIPS

	Each	Per doz.	100
DORIS. Rose, flushed silvery gray.....	\$0 05	\$0 50	\$3 00
ELLEN WILLMOTT. Outside light yellow, inside dark yellow; large flower and very attractive variety; extra fine.....	08	75	5 00
EMERALD GEM. Coral-red, with dark green center.....	06	60	4 00
GOLD DUST. Yellow, tinged red; beautiful, long, egg-shaped flower.....	08	90	6 50
HENRY HUDSON. Bright orange-scarlet; produces from 3 to 5 flowers to a bulb. A very taking novelty.....	08	90	6 00
JOHN RUSKIN. Pink, bordered golden; a rare combination of colors; very distinct...	22	2 50	18 00
ORANGE KING. Beautiful, bright orange; very large flower.....	08	90	6 00
SCARLET EMPEROR. Another giant; enormous flowers of the brightest scarlet, with clear yellow base.....	20	2 00	15 00
SUNBEAM. Soft canary-yellow. A very attractive novelty.....	13	1 40	10 00

NARCISSI

	Each	Per doz.	100
ALIDA. (Ajax.) Trumpet and perianth soft canary-yellow; a remarkably beautiful flower of great size and substance.....	\$0 20	\$2 20	\$16 00
ARGENT. (Incomparabilis.) Creamy white petals, with yellow center and elegant star-shaped, semi-double flower. One of the best novelties.....	15	1 65	12 00
CORNELIA. (Ajax.) The improved Emperor.....	35	3 50	25 00
DUKE OF BEDFORD. (Ajax.) The largest Bicolor in existence.....	1 00	10 00	
FIREBRAND. (Barrii.) Creamy white, intense fiery red cup; very distinct.....	10	1 00	7 00
KING ALFRED. (Ajax.) A large and remarkably elegant golden yellow trumpet; magnificent variety.....	90	9 00	
LUCIFER. (Incomparabilis.) Large white perianth, cup intense, glowing orange-red; very brilliant flower; very distinct.....	25	2 50	16 00
MONARCH. (Ajax.) One of the largest and most beautiful of the golden yellow trumpets.....	85	7 50	
RED BEACON. (Barrii.) Petals ivory-white, broad, and of great substance, cup most intense, fiery orange-red. Height 17 inches.....	5 00	55 00	
RED STAR. (Incomparabilis.) Perianth creamy white, cup stained brilliant red; an elegant and brilliant flower.....	12	1 20	8 00
WHITE LADY. (Leedsii.) Exquisite flower, with broad white perianth and dainty cup, of pale canary-color, prettily crinkled.....	16	1 75	12 00

HYACINTHS

	Each	Per doz.	100
ADMIRAL COURBET. Enormously large truss; bright sky-blue; fine for early forcing.....	\$0 22	\$2 50	\$17 00
BISMARCK. Very early, and one of the best light blues.....	25	2 50	16 00
DR. SCHAEPMAN. Bright dark pink; semi-double bells; a splendid flower.....	33	3 40	25 00
GENERAL VON DER HEYDEN. Bright, dark lavender, destined to become one of the leading blues; large, fine spike and distinct color; forces early.....	23	2 40	16 00
LA VICTOIRE. The greatest novelty of the last decade. Brilliant red; immense, splendidly shaped truss.....	20	1 55	13 00
QUEEN OF THE PINKS. Sport of King of the Blues. Brilliant delicate pink; a great novelty.....	40	4 00	
WHITE LADY. Sport of the blue Lord Derby. Pure white; compact spike; considered by many the best white.....	28	3 25	

Bellis perennis naturalized on the bank of a pond

*Flowers by the Ten Thousand

The Easiest, Least Expensive and Most Artistic Way of Growing Myriads of Flowers

By J. WILKINSON ELLIOTT

THE most inspiring floricultural idea of the last quarter of a century is the naturalizing of flowers by the thousand in situations where they need absolutely no care after planting. It is the easiest kind of gardening, for there is no weeding, watering, hoeing, staking or tying. It is the most artistic form of gardening, because the flowers fit perfectly into the landscape. It is the most effective kind of gardening, because nothing can surpass in beauty a continuous sheet of flowers all of the same variety. (No matter how numerous they may be, these wildings never seem gaudy or vulgar.) And, finally, it is the least expensive way of getting hosts of flowers—flowers like the stars of the Milky Way in multitude. A thousand narcissus bulbs! The thought takes one's breath away; yet a thousand bulbs of the poet's narcissus cost only five dollars,—a mere nothing compared with the vision of loveliness which it makes possible. And the first cost is the only cost. Compare the frontispiece of this magazine with the pretentious "Italian" gardens of today, which cost a fortune to maintain and never fit into an American landscape. Which style do you prefer? The accompanying illustrations must be a revelation, even to the initiated, of the wonderful pictures that have already been created in America, by the wholesale naturalization of flowers in woods and meadows.

Small city places do not offer many opportunities for naturalizing, but some of the spring flowers can be used in this way on the smallest lots. Snowdrops and *Scilla Sibirica* can be planted in the grass of the most closely shaven lawn; they are so dwarf and bloom so early that the bulbs ripen perfectly and will continue to bloom year after year. This is not true of crocuses, which are frequently planted on lawns. If the grass is mown, the crocuses must be replanted at least every two years.

When small bulbs are planted on lawns, care must be taken to arrange them in natural-looking groups. Often I see crocuses scattered over the entire surface of a lawn a foot or two apart; the effect is extremely bad. In naturalizing bulbs or hardy plants, each variety should be held together in irregular-shaped groups, which should be closely planted in the center and more thinly as the margin is approached (see bluet picture). It is a good plan to scatter the bulbs over the surface of the ground before planting any of them. I stand in the center of the proposed group, dropping some of the bulbs at my feet and throwing others out in every direction, planting them where they fall. Circular groups should be avoided. They may be made of almost any irregular shape but always longer than they are broad. The arrangement largely depends upon the situation; a bay or recess in the shrubbery may be thickly and entirely filled with one variety of bulbs, a sloping bank may be a mass of narcissi or tulips, or an orchard in which the grass is not mown until after July first will afford opportunities for many groups and a succession of bloom for two months or more.

The great advantage of using flowering bulbs in this way is that the plantings are permanent and need never be renewed but increase in size and beauty year after year, which is much more satisfactory than the present annual waste of millions of bulbs used for inartistic beds on the lawn. These bulbs are all destroyed, as they must be removed before they are ripened, in order to plant the undesirable bedding plants which follow them. It must be remembered that the foliage of bulbs must not be cut off before it has ripened, but this does not prevent them from being planted in orchards and meadows, as the foliage is ripened by the time the grass is ready to cut for hay.

The only tool we use in planting bulbs is a good, strong garden trowel, with which a hole is dug for each bulb. We cover spring-

*From *Country Life in America*. Copyrighted, 1904, by Doubleday, Page & Co.

flowering bulbs on an average with about an inch and a half of soil, and lilies are planted about six inches deep. Years ago, when I used to plant bulbs myself and found that the trowel-handle soon blistered my hands, I used a tool for planting bulbs. It was made by taking a piece of brass or wrought-iron pipe two feet long and an inch and a half or two inches in diameter. One end of this was ground to a sharp cutting edge; on the other end was placed a fitting, which, I believe, is called a "cross"; in two openings of this cross were placed short pieces of pipe for handles; in the pipe was placed a round piece of wood, a little smaller than the pipe and a few inches longer, and a nail was driven in one end of this to keep it from falling out. This tool was used by pressing the sharpened end of the pipe into the ground the depth desired to plant the bulb; it was then removed and carried with it a piece of sod with the soil; the bulb was then dropped into the hole, the tool placed on top of it and the soil pressed back into the hole by pushing the round stick. In moist ground (and I always wait until we get sufficient rain to make it moist before planting), bulbs can be planted very rapidly. If my memory serves me, I used to plant three or four thousand a day with it. The tool cannot be used in rough, hard ground. It is extremely satisfactory for planting bulbs on the lawn, as it leaves no mark whatever in smooth sod.

Of the great variety of spring-flowering bulbs, the daffodils or narcissi are the most desirable and beautiful; their beautiful forms and coloring and graceful habit leave nothing to be desired, as they are easily grown and as much at home in the grass as dandelions. Of course the delicate, high-priced sorts must not be used, but there is no lack of cheap sorts that are entirely satisfactory. The poet's narcissus can be bought for less than six dollars per thousand. They are charming flowers, blooming in May after almost all other bulbous flowers are gone, but sometimes they will not bloom at all. A few years ago my brother planted ten thousand for cut-flowers and hardly got a dozen flowers a year. After a few years he was disgusted and plowed them under. Much to his surprise, they bloomed profusely the following spring. My explanation is this: *Narcissus poeticus* bulbs do not like a wet soil, and the plowing of the ground during the summer gave the soil a chance to dry out and the bulbs to ripen. *Narcissus poeticus* will not bloom on my ground, which is also wet; neither will *Narcissus alba plena odorata*, but both do well on dry ground and are excellent for steep stony banks or for the open woods where the ground is dry. *Narcissus poeticus ornatus*, the early variety of the poet's narcissus, increases rapidly and blooms profusely every spring on my ground, which is excessively wet in some places. So do Emperor and Empress, Barri conspicuus, Golden Spur, Princeps, Figaro, Alba Stella, Cynosure, Sir Watkin, Orange Phoenix and Biflorus, all of which are desirable and not too expensive to use in quantity for naturalizing. On my own grounds I have used some twenty

Trumpet Narcissus naturalized in a meadow near Pittsburg

Snowdrops clustering around a tree trunk

thousand or more of these kinds, and the daffodil season, which is also the magnolia season, is the most delightful in our calendar.

Some claim that tulips are not suitable for naturalizing, and I will admit that the striped and variegated sorts are not at home in any natural planting; but the self-colored sorts are entirely fit, and what can be finer than those glorious late tulips, Gesneriana and Bouton d'Or, blooming in the tall grass. But they will not do any good in wet ground. I have planted thousands, and they disappear entirely after the second year. On the contrary, twenty years ago I knew a florist who planted on a stony hillside thousands of exhausted tulip bulbs which he had forced for cut-flowers. That he would get results from such stock I thought was extremely doubtful, and told him so. He replied that it was waste land and waste bulbs, and he could afford to take the chance. After a year or two the tulips commenced to bloom freely and are still blooming every spring among the grass and weeds, which have vainly striven to choke them out.

The snowdrops are perhaps the most delightful of all bulbs for naturalizing, on account of their blooming in March before there is a sign of life in wood, field or garden. They can be planted on the lawn, but the most effective way of using them is to plant thickly around the trunks of trees in open woods. As the lovely white flowers are very small, the bulbs must be planted thickly and by the thousand, to be effective.

Equally charming is the exquisite blue *Scilla Sibirica*, which blooms a little later; it also requires close planting. Scillas are all good, especially the varieties of *S. campanulata*, which produce rather large spikes of blue, white or pink flowers and are among the latest of the spring-flowering bulbs to bloom. Equal in daintiness are the grape hyacinths and the various kinds of chionodoxa. No one will regret planting good sized-masses of *Chionodoxa Luciliae*, which covers the ground early in the spring with a carpet of exquisite blue and white bloom.

When it comes to hardy herbaceous plants, both native and exotic, suitable for naturalizing, the list is almost endless. I must be content to tell of a few things that I have found especially effective. First in usefulness, perhaps, are our native phloxes. *Phlox divaricata*, known as wild sweet william, grows in great abundance over a large section of this country. It is easy to collect and transplant, and its graceful habit and sweet-scented light purple flowers make it very attractive; it will thrive in either sun or shade. *Phlox Carolina*, a rare species from the South, is identical with *P. divaricata*, in foliage and habit but with the bluest flowers of any phlox. *P. reptans* is a very dwarf variety with pinkish flowers, and both it and *P. Carolina* will grow well in either sun or shade. Millions of geraniums are planted annually, yet with different varieties of *P. subulata*, or moss pink, color effects can be produced not to be equaled in any way by the most lavish use of geraniums. Yet the first cost of the phlox is much less than that of geraniums, and its first cost is its only cost, as nothing increases more rapidly and nothing is hardier. The Germans describe it as "winter-hart", that is, hardy in winter, and it is absolutely so in every situation. It can be used advantageously in more ways than any other plant I know of, but is seen at its best when used to cover a steep, rocky bank. It is evergreen and its foliage covers the ground as completely as the grass of a lawn, and when it is in bloom in May it is a solid sheet of pink or white bloom, which lasts for a month. It blooms again in September, but not so freely. The colors are light to deep pink, purplish pink, pure white and white with pink center, and I have had recently a blue variety from England which promises to be valuable.

Among the most beautiful scenes in England are the meadows and orchards filled with the common yellow primroses, *Primula vulgaris*, in the spring. This charming flower is equally hardy in this country, and so are the Japanese primroses, *P. Japonica* and *P. Sieboldi*, ranging from pure white to deep purple. The polyanthus section, *P. veris*, are among the earliest of spring flowers. Our bright and cheerful native Columbine, *Aquilegia Canadensis*, has been naturalized over a large section of our country, and is well worth consideration in any scheme of natural gardening. It is quite happy in sun or partial shade.

The same is true of *Aquilegia cœrulea*, *A. chrysantha*, *A. glandulosa* and of any of the wild varieties.

Other Choice Hardy Perennial Flowers and Shrubs Suitable for Naturalizing

Butterfly-weed.
Orange or yellow day-lilies.
Sweet rocket.
New England aster, rosy variety.

Laurel (*Kalmia latifolia*).

Narcissus poeticus is a good kind for naturalizing

Flowers in the House from Christmas Until Easter

It is possible to have an abundant supply of flowers in the house from Christmas until Easter, and with no greater facilities than are to be had in every dwelling-house, and at comparatively small cost. Both Roman and Dutch Hyacinths can be bloomed in the winter with certain and satisfactory results. Roman Hyacinths and Paper-White Narcissi can be had in bloom by Christmas or earlier, and are

Fern-Dish of White Roman Hyacinths

the most satisfactory bulbs that can be grown for winter flowers. They come into bloom quickly, and it is almost impossible to fail with them. The most delightful way to use them is to plant a quantity in a fern-dish, jardiniere or other receptacle suitable for using for a center-piece for the dining-table. The bulbs are not planted directly in the fern-dish, but in a zinc pan, which is made to fit inside of the fern-dish. Extra zinc pans can be had, and when Roman Hyacinths are to be grown, from six to twelve extra pans should be used. The Roman Hyacinths should be planted in the pans in the fall, from September 1 until the last of November, at intervals of two weeks. Paper-White Narcissi can be grown in water the same as the Chinese Sacred Lily, which they surpass in every respect.

The soil used should be light and rich, one-third good soil, one-third sand, and one-third thoroughly rotted manure, and the bulbs planted thickly, so that they almost touch. As soon as planted, they should be well watered and then set away in the coolest part of the cellar, and not near the furnace or any fire heat. If the cellar is a light one, the bulbs should be covered with boxes, canvas, or anything that is convenient to keep them dark. If the soil gets dry it can be watered, but not oftener than once in two weeks. Roman Hyacinths may be brought into the light and heat about December 1, and will be in bloom in about two weeks. After bringing into the living-room they should be freely watered. By bringing a pan or more of bulbs from the cellar every ten days, a succession of flowers for the table can be had all winter and spring. A centerpiece of growing Roman or Dutch Hyacinths makes the most beautiful table decoration that can be obtained, does not cost one-fifth as much as cut-flowers, and will last in perfect beauty for ten days or more, while cut-flowers are often faded before a dinner is over. The pans for growing Roman Hyacinths can be from 3 to 5 inches deep, but pans for Dutch Hyacinths should not be less than 4 inches deep. Do not attempt to force cheap mixed Hyacinths; the results will not be satisfactory.

Roman Hyacinths have small single white, pink or blue flowers. They bloom profusely, having from four to

Zinc Pan for Fern Dish

Collections of Bulbs Suitable for the House

Prices of Dutch and Roman Hyacinths will be found elsewhere in this list, but I shall be pleased to make up collections suitable for the house at \$2.50, \$5, \$10, \$15, \$20, and \$25 each. These collections can be relied upon to be entirely satisfactory, both as to quality and price.

Roman Hyacinths in pots

ORDER BULBS NOT LATER THAN JULY 1

Lilium Harrisii

(True Bermuda Easter Lilies) (READY IN AUGUST)

It is impossible to obtain Bermuda Lily bulbs that are entirely free from disease. We get the best bulbs obtainable, but cannot guarantee results

This Lily is so now well known that it needs no description. It is undoubtedly one of the most popular flowers ever used for forcing. The bulbs we supply are of the highest quality obtainable, and are perfectly true, and not mixed with *Lilium longiflorum*. It cannot be grown outdoors unless extremely well protected in winter. If a Lily of this character is desired for outdoor planting *L. longiflorum* should be used. These Lilies can be successfully grown only in a greenhouse. Don't attempt to bloom them in the house.

	Per doz.	100
Bulbs 5 to 7 inches in circumference.....	\$1 00	\$7 00
Bulbs 7 to 9 inches in circumference.....	2 00	14 00
Bulbs 9 to 11 inches in circumference.....	4 50	34 00

Lilium candidum

(READY IN SEPTEMBER AND DELIVERED AS SOON AS READY)

This is the old-fashioned Easter or Annunciation Lily, with lovely, pure white, cup-shaped flowers, blooming in June. It makes a fall growth, and for this reason it should be planted as early as possible.

	Per doz.	100
French bulbs.....	\$1 00	\$7 50
North of France bulbs, selected.....	1 50	10 00
Monster bulbs.....	2 00	13 00

Paper-White Narcissus

Splendid for growing in pots or water, and can be had in bloom for Christmas or earlier. Large clusters of pure white, fragrant flowers. Cheaper and very superior to the Chinese Sacred Lily.

Freesia refracta alba

Lilium candidum

Roman Hyacinths

(READY ABOUT SEPTEMBER 1)

Prices for orders booked before July 1 Per doz. 100

White. Selected, 12 to 15 centimeters.....	\$0 65	\$4 50
" Extra-selected, 13 to 15 centimeters.....	80	5 75
Pink.....	60	4 00
Blue.....	55	3 50

There has been a partial failure of the crop of Roman Hyacinths in France, for three years in succession, but in spite of this we have been able to fill our orders in full. The prices are steadily advancing.

Lily-of-the-Valley

Extra-selected Berlin pips. Ready about Decem-ber 1.....	Per 100	1,000
American pips. Ready in October. For outdoor planting only.....	1 50	9 00
Large clumps..... each, 50c.; doz., \$5..		

These pips are excellent for establishing plantations outdoors as well as for forcing. The Berlin pips are not ready in time for outdoor planting in the fall.

Freesia

Refracta alba. This charming flower is one of the most satisfactory bulbs that can be forced. It is certain to flower either in the conservatory or the house.

	Per doz.	100	1,000
Large bulbs.....	\$0 20	\$1 00	\$9 00
Mammoth bulbs.....	30	1 75	15 00

Improved Purity. The finest and purest white variety; strong growth and largest flowers... 30 2 25 18 00

Large-flowered Crocuses

CROCUSES IN THE GRASS

Even the possessor of only the smallest strip of grass should have it filled with Crocuses. The cost is but a trifle, and once planted they are no further trouble, and bloom beautifully year after year, and do not interfere with the mowing or care of the lawn; but grass should not be mown for two weeks after flowering of Crocuses, and it does not need mowing earlier than this. They should be planted in the fall and set from 1 to 2 inches below the surface of the ground; they can be planted with a narrow trowel or a stiff-bladed knife. Mowing the grass in the spring, after the Crocuses are done blooming, will not injure them in the least.

The Crocus is the first flower to bloom in the spring, and it is no unusual sight to see the ground covered with snow and the Crocus in bloom at the same time. They are entirely hardy, do not deteriorate, and may be left undisturbed for years. It is a good thing to plant tulip and hyacinth beds full of them, as they bloom and are out of the way before the other bulbs flower. Owing to increasing scarcity in Holland, Crocuses have again advanced in price.

Our advice would always be to plant named Crocuses; mixed sorts never give satisfaction

Select Named Crocus

Prices quoted are for orders booked by July 1, 1914. Not less than 50 of a kind will be supplied

Bed of Hyacinths, planted with Bedding Varieties in Separate Colors

HYACINTHS

All prices on Hyacinths are for orders booked by July 1. Ready about October 1

Mixed Hyacinths

Mixed Hyacinths should never be used for house or greenhouse culture.

SINGLE			
	Each	Per doz.	100
Red and Dark Red	\$0 06	\$0 55	\$3 50
Pink	06	55	3 50
Blush-White	06	55	3 50
Pure White	06	55	3 50
Dark Blue and Purple	06	55	3 80
Light Blue	06	55	3 80
Yellow	06	55	3 80
All Colors, Mixed	\$16.50 for 500	55	3 40

DOUBLE

Double Hyacinths are so inferior to single that they should never be used for any purpose.

	Each	Per doz.	100
Red and Pink	\$0 06	\$0 55	\$3 75
White	06	55	3 75
Blue and Purple	06	55	3 75
Yellow	06	55	3 75
All Colors, Mixed	06	55	3 75

Bedding Hyacinths

Separate varieties without names. These are superior in quality to Mixed Hyacinths, and very satisfactory for bedding, as uniformity in color and height can be had by their use.

SINGLE			
	Per doz.	100	1,000
Dark Red	\$0 60	\$4 50	\$40 00
Pink	60	4 50	40 00

Dark Blue	60	4 50	40 00
Light Blue	60	4 50	40 00
Yellow	60	4 50	40 00

Second-Size Named Hyacinths

These Second-size Hyacinths will be found fine for forcing, and are highly recommended for those who desire extra-good bulbs for bedding. They embrace the leading named sorts of this list, are larger bulbs than those sold as mixed, and strictly true to name and color, thus giving exact shades wanted. We can offer them in the following varieties, all of which are described in the following list. We offer single varieties only, as double sorts are very inferior.

Red, Rose and Pink. Baron von Thuyll, General Pelissier, Gertrude, Gigantea, Roi des Belges, Cardinal Wiseman.

White and Blush-White. Grande Blanche, Grandeur à Merveille, Mr. Plimsol, L'Innocence, Baroness von Thuyll.

Dark and Light Blue. Grand Maitre, King of the Blues, La Peyrouse, Marie, Regulus.

PRICES: Any or all of the above varieties, 75 cts. per doz., \$5.50 per 100, \$49 per 1,000. Fifty will be supplied at the 100 rate and 500 at the 1,000 rate. These bulbs are equal to those usually sold as first-size in this country.

Single Small Hyacinths for Forcing

These Single Hyacinths, planted on arrival from Holland, may be had in flower early in January. The bulbs and flowers of these small Hyacinths are about the same size as Roman Hyacinths, but much stronger, and the bells are larger, while they do not cost half the price of Romans. Only those varieties which produce the fine flowers and force easily are selected for this purpose. They may be planted like tulips in pots or boxes close together. Last season we sold large quantities, and our customers inform us that they are a great acquisition to succeed the Roman Hyacinths, blooming from January to April.

	Per doz.	100
Dark Red	\$0 40	\$2 70
Pink	40	2 65
Pure White	40	2 70
Cream-White	40	2 65
Dark Blue	45	3 00
Light Blue	45	3 00
All Colors, Mixed	38	2 50

Single Named Hyacinths

To secure the 100 price on Named Hyacinths, not less than 25 bulbs of a variety can be ordered

Named Hyacinths of the quality imported by us cannot be obtained elsewhere in this country. They are selected exhibition bulbs, and have won first prizes wherever exhibited, both in this country and in Europe. Hundreds of our customers write us that they have never seen such fine flowers as these bulbs produce. We are confident that anyone who will try these Hyacinths, or any of the named bulbs offered in this Catalogue, will never again be satisfied with the inferior bulbs sold by dealers in this country. Varieties marked with an asterisk (*) are very desirable.

SINGLE DARK RED

	Each	per doz.	100
Amy. Carmine; good bedder.....	\$0 10	\$1 00	\$7 00
Cosmos. Dark rose; large spike.....	12	1 35	9 00

Bulbs by Mail

We will send bulbs in small quantities by mail, when requested, and charge postage at cost. Except in very small lots, bulbs can be sent cheaper by express than by mail.

Lord Derby. Character of flower produced by our First-size Named Hyacinths

Single Early Tulips

Tulips

We have made a special effort to get the best Tulips grown in Holland, and to supply our customers with the superior class of bulbs usually monopolized by the high-class trade in England. We have been quite successful in this, and, if so disposed, could publish hundreds of enthusiastic letters received from our customers, testifying to the surpassing quality of the Tulips imported for them. These letters, of course, refer to Named Tulips. The best results can not be expected when the cheap Mixed Tulips are planted. Yet our customers report satisfactory results from our Mixed Tulips. For our own planting, however, we never use mixed bulbs of any description. We think fewer bulbs of the highest grade give more pleasure and satisfaction than many of an inferior quality. We, therefore, do not recommend any but named varieties. There is, however, a great demand for Mixed Tulips, and we are obliged to supply it.

Tulips in Mixture

Prices quoted are for orders booked by July 1, 1914

Special prices quoted for 10,000

	100	1,000
Competition Single Mixed. All we can say for this Mixture is that it is as good as some dealers sell for more money.....	\$0 65	\$6 00
Fine Single Mixed. Quality superior to that generally sold.....	70	6 50
Extra-fine Single Mixed. Extra selected.....	90	8 50
Special Fine Single Mixed. Highest grade.....	1 30	11 00
Fine Double Mixed. Quality superior to that generally sold.....	95	8 00
Extra-fine Double Mixed. Extra selected.....	1 15	9 50
Double Late Tulips Mixed	1 15	10 00

Single Named Early Tulips

If best results are desired, Named Tulips should be used. Mixed Tulips are not recommended, although the Mixtures imported by us are very superior to those usually sent out.

The letters A, B and C indicate the proportional earliness of the varieties if planted outdoors. A and B may be used together for bedding purposes, but those marked C are later. The numbers preceding names show the height of growth in inches. Those marked F after the name are the best for forcing in the house or greenhouse.

Prices quoted are for orders booked by July 1, 1914

B 8 Yellow Prince. F. Golden yellow; sweet-scented. Not good for outdoors.	25	1 50	12 00

Double Tulip, Murillo. (Bloomed in the house)

Double Early Tulips

These are all very desirable for bedding purposes. White, red and yellow sorts, of about the same height, planted in lines of three or four rows of each color, form, with their large, rose-like flowers, beds of surpassing grandeur. Their flowers, being double, are quite persistent, and, being also late in blooming, they serve to prolong the season of gorgeous beauty in the spring flower-garden. Those sorts marked with an asterisk (*) are the earlier kinds, which are not only valuable as bedders, but succeed admirably if forced in pots. Those not so marked are not recommended for pot culture. A's flower together, B's follow, etc.

	Doz.	100	1,000

Parrot Tulips

Parrot Tulips sometimes do not bloom satisfactorily, owing to improper planting. They like a light, sandy soil, shallow planting and a sunny location.

Parrot Tulips do not receive the attention they deserve. These belong to the late or May-flowering Tulips, and have immense, attractive flowers of singular and picturesque forms and brilliant and varied colors. The petals are curiously fringed or cut, and the form of the flower, especially before it opens, resembles the neck of a parrot. They form extravagantly showy flower-beds and should be grown in every flower-garden in quantities. They are especially desirable for cut-flowers. The Parrot Tulips we import are from the most famous grower of these in Holland, and very superior to those usually sent out, which are often immature bulbs and will not bloom well under the most favorable circumstances.

Admiral of Constantinople. Fine red. 25 cts. per doz., \$1.50 per 100.

Cafe Brun. Brown and yellow striped. 25 cts. per doz., \$1.50 per 100.

Cafe Pourpre. Fine orange, feathered with scarlet; large flower. 30 cts. per doz., \$2 per 100.

Cramoisi Brillant. Scarlet; finest of all; free-blooming. 30c. per doz., \$1.60 per 100.

Lutea Major. Yellow; very fine. 25 cts. per doz., \$1.50 per 100.

Markgraaf von Baden. True Orange, striped scarlet; extra fine. 35 cts. per doz., \$2 per 100.

Perfecta. Yellow and scarlet; large flower. 25 cts. per doz., \$1.50 per 100.

Fine Mixed. 20 cts. per doz., \$1.20 per 100, \$9.50 per 1,000.

Roses. Red, on white ground. Choicest			
mixed varieties.....	30	1 75	
Violettes. Violet, on white ground. Choicest			
mixed.....	30	1 75	

The Bizarres, Bybloems, Roses and Violettes are the Tulips of the famous Tulip mania of Europe, when Tulips sold as high as \$1,000 each, and entire communities were involved in the speculation. They are very interesting and beautiful.

Breeder Tulips

Breeders, formerly listed among the Cottage Tulips, really form a distinct class by themselves, being unbroken forms of the old-time "florists" Tulips. A long time we thought there would be no room for this class of Tulips next to the Darwins, the colors of which are so much brighter; but we have been greatly mistaken for, more and more, the peculiar dull-toned bronze colors of the Breeders are becoming popular, and last year there was a very big demand for them.

It is these odd colors which form one of the chief characteristics of the Breeders. Outside of that, most of them produce flowers with great lasting qualities and with a sweet, agreeable smell.

The kinds which we list, with a few exceptions, are large-flowering ones, surpassing in height and size even the largest Darwins.

Late-Flowering Tulips

Late Tulips are but little known in this country, yet they are extremely beautiful and striking, and come into bloom in May; after all other Tulips are over. Many are the original wild varieties, and, if planted where they can remain permanently, will bloom year after year. The flowers may grow a trifle smaller, but they are always beautiful. Our experience has been that permanent plantations of Tulips should be planted deeply and not be watered after flowering. They seem to do much better if allowed to take their chances with the weather, and we know of a lot of single early Tulips planted in a bed in a farm field where they have never been watered or cultivated in any way, not even the weeds and grass removed, yet they thrive and bloom splendidly year after year. The Tulips are constantly increasing in numbers, and their blooming-time is anxiously waited for every spring. We wish to call special attention to the brilliant, glowing red Gesneriana Tulip, with its handsome blue marking. As a rule late Tulips produce smaller bulbs than early varieties in spite of the fact that they have much larger flowers.

May-Flowering or Cottage Tulips

These, also known as "Old English Garden Tulips," are a most interesting class, with wonderfully showy and beautiful flowers. Blooming very late, they extend the spring-flowering bulb season well into May. They are all tall-growing, averaging about 24 inches in height.

	Doz.	100	1,000
Avis Kennicutt. Large; deep yellow	\$0 85	\$6 00	
Ellen Willmott. One of the finest May-flowering Tulips. Flowers very large, beautifully shaped, soft creamy yellow; deliciously fragrant.....	75	5 00	\$45 00

Special Mixture Late Single Tulips.	25	1 50	14 00

The Glorious Darwin Tulips

A handsome May-flowering class, and quite distinct in style of growth from the other late-flowering sorts. Stately in appearance, attaining a height of 18 to 30 inches, and bearing on strong stems beautiful, globular flowers of remarkably heavy texture, in a large range of colors, embracing almost every conceivable tint in rose, heliotrope, claret, crimson, maroon, and other rich and rare shades. In no class of Tulips has the improvement been so marked, and they are now of the most distinguished character and are unsurpassed, either in the garden or for cutting. **They are undoubtedly the most striking and beautiful of all Tulips.** We commend them most heartily, and have added to our list of varieties, which now includes the choicest varieties extant.

Darwin Tulips are most valuable for permanent planting. With deep planting, 4 to 5 inches in heavy soil and 6 inches in light soil, they will continue to bloom for years, and for this reason they are very valuable for planting in shrubberies and borders. They also thrive in semi-tropical climates, like those of California and the southern states, better than the early Tulips.

Novelties in Darwin Tulips

City of Haarlem. Brilliant ear-mine; enormous flower.	Each \$0 40	Doz. \$4 50	100

Bed of Darwin Tulips, showing stately habit of growth

Narcissus, Golden Spur (see page 22)

New Narcissus, Bicolor Victoria (see page 23)

Narcissi

We presume that for every Narcissus bulb planted there are one hundred tulips or hyacinths. That this is a great mistake, any one really familiar with their very great merits must admit. They lack the brilliancy of color of the tulips, but greatly surpass them in variety, delicacy and gracefulness of form, and one never becomes tired of their soft, beautiful colors. The great point in their favor is that they are permanent additions to the garden. All they ask is that they be allowed to remain undisturbed, and they will increase in size and beauty year after year, and many varieties are perfectly at home naturalized in the grass, provided the grass is not cut before their tops have time to ripen. This is not true of hyacinths and tulips, which, unless planted under the most favorable conditions, must be planted every year to have in perfection.

Narcissus, Bicolor Empress, naturalized in the grass
From "The Garden" (see page 23)

Special Offer of Golden Spur Narcissus (See illustration) page 21

This is one of the most valuable of the Trumpet Narcissi, with magnificent deep yellow trumpet, the brim expanding like Maximus, and large, spreading, full, deep yellow petals. It is free flowering and splendid both for house culture and outdoors, and is one of the most desirable varieties for naturalizing.

	Per doz.	100	1,000
Monster Bulbs.....	\$0 50	\$3 50	\$30 00
Extra-large selected bulbs.....	35	2 35	21 00
Flowering bulbs.....	30	1 75	15 00

New Narcissus, Madam Plemp

A new and very fine Bicolor Narcissus, having the vigor and substance of Emperor, and very large flowers; pure white petals and bright yellow trumpet. Grows 16 inches high. Very desirable. Somewhat higher priced than Empress, but really an improvement. 55 cts. per doz., \$4 per 100, \$33 per 1,000.

Narcissus Emperor

This is the largest and finest deep yellow trumpet-flowered Daffodil in cultivation, and is really superb, both in foliage and flower. Either for the garden or for naturalizing it is one of the very finest varieties and cannot be commended too highly. Monster bulbs, more than twice the size of those usually sold, 50 cts. per doz., \$3 per 100, \$27 per 1,000; first-quality bulbs, larger than usually sent out, 35 cts. per doz., \$2.35 per 100, \$21 per 1,000.

Narcissus, Emperor

Narcissus, Bicolor Empress

(See illustration, page 22)

This may be considered rather a high-priced Daffodil for planting in the grass, but the effect produced is so lovely, and it is so hardy and vigorous, that nothing can be planted that will be more satisfactory, and, as we control the best stock of it in Holland, we can make a specially low price. If planted in orchards, meadows or any place where the grass is not mown by a lawn-mower, these Daffodils will increase in quantity and beauty year after year. Where they are planted, the grass must not be mown before the middle of June, so that the bulbs may have time to ripen before the tops are cut off. Our Emperor and Empress Narcissi are more than double the size of the bulbs usually sold in this country. Monster bulbs, 50 cts. per doz., \$3 per 100, \$27 per 1,000. Large, selected bulbs, 35 cts. per doz., \$2.35 per 100, \$21 per 1,000.

Narcissus, Bicolor Victoria

(See illustration, page 21)

One of the newer varieties and the best of all the Bicolors. Perianth creamy white, trumpet rich yellow, delicately perfumed. Unsurpassed for pot culture or growing outdoors in the garden, or the grass. Monster bulbs, 50 cts. per doz., \$3.35 per 100, \$29 per 1,000. Large, selected bulbs, 40 cts. per doz., \$2.50 per 100, \$20 per 1,000.

Double Narcissi

Alba plena odorata (Double Doz. . 100 1,000 Poeticus). Pure white, resembling a gardenia; sweet-scented. Likes partial shade and heavy, moist soil. Good in a cool climate; often fails to bloom. \$0 18 \$0 90 \$8 00

Campernellus rugulosus plenus. Elegant, double yellow flowers on tall, graceful stems. 55 3 50

Jonquils. Double; sweet-scented. 30 2 10 18 00

Orange Phoenix (Eggs and Bacon). Double; white and orange; beautiful. 25 1 60 14 00

Primrose Phoenix. The large, double, rose-shaped flowers are of a beautiful soft lemon shade; fine for cutting. each, 35c. 3 50

Sulphur or Silver Phoenix

Creamy white; beautiful flower; splendid. Now that this lovely variety can be had at a low Doz. 100 1,000 price, it should be freely used. \$0 40 \$2 25 \$17 00

Von Sion (Double Yellow Daffodil). One of the best forcing sorts; extra-large, fine bulbs, and not mixed with the inferior greenish flowered variety usually sold. Very popular. 30 1 90 17 50
Extra-size double-nosed bulbs. 50 3 00 25 00

Single Jonquils

The Jonquils have small yellow flowers which are produced in clusters. They are very fragrant. Doz. 100 1,000

Jonquil. Single; sweet-scented. \$0 15 \$0 80 \$6 50

Jonquil (Campernelles). Yellow; sweet-scented. 18 85 7 00

Jonquil (Campernelles) rugulosus. Large; golden yellow. Larger and finer than the old Campernelles. 20 1 00 8 00

The Poet's Narcissi

The true **Poet's Daffodils**. Delicately perfumed and charming in form and color. Fine for planting among shrubbery or in the grass.

Poeticus (Pheasant's Eye). The well-known Doz. 100 1,000 Poet's Narcissus. Requires a dry soil and will not bloom in wet. \$0 15 \$0 80 \$7 00

Narcissus, Sulphur Phoenix

THE POET'S NARCISSI, continued

Poeticus ornatus. Improved Poeticus. Doz. 100 1,000

Can be forced earlier and blooms earlier outdoors; always sure to bloom. \$0 20 \$0 90 \$8 00

Poeticus poetarum. Pure white petals, with orange-scarlet cup. 25 1 35 11 00

Poeticus grandiflora. Large flowers; earliest. One of the finest for naturalizing amongst shrubbery, as it blooms soon after the forsythias and adds a much appreciated bit of brightness to the garden. 35 2 50 20 00

Poeticus, Edward VII, or Almira. Extra-large, improved Ornatus. 60 4 00 33 00

Poeticus, Glory. Largest of the section, and very early. 75 6 00

Large-Flowered Single Narcissi

Albicans (Silver Trumpet). Primrose Doz. 100 1,000 trumpet, white perianth. \$0 40 \$2 35 \$20 00

Barrii Conspicuus. Broad primrose petals and elegantly expanded crown, heavily stained orange-scarlet, extra fine. 18 1 20 9 00

Barrii, Flora Wilson. Pure white perianth, yellow cup, orange-scarlet edged. A very brilliant and beautiful flower. 60 4 00

Narcissus poeticus ornatus (Bloomed in the house). See page 23

Extra-sized bulbs,.....	35	2 00
The Pearl (True). Pure white; large flower.....	50	3 00

COLCHICUM

(Autumn-Flowering Crocus)

These charming flowers resemble crocuses, but are larger and are displayed more above the ground, and, instead of blooming early in spring, bloom in September, when the flowers appear without any leaves, the leaves appearing the following spring. The bulbs are very apt to bloom in the packages while being delivered, but this will not prevent them from blooming the following season. The colors comprise many shades of white, purple, rose, and striped. They are beautiful and interesting and should be planted where they can remain permanently.

	Per doz.	100
Autumnale alba. White.....	\$0 50	\$3 00
Autumnale major. Purple.....	75	4 50
Autumnale roseum plenum. Double rose.....	60	3 75
Autumnale, Mixed.	40	3 00

OXALIS

These are profuse bloomers, and very attractive in the house or conservatory during the winter. Plant three or four bulbs in a pot; the pot should be kept near the glass to prevent the foliage from growing too long.

Bermuda Buttercup. Greatly improved selection from *Oxalis Cernua*; grows in the congenial soil and climate of Bermuda until the bulbs have attained great strength, producing plants and flowers larger and more luxuriant than the common variety. It is one of the finest of winter-flowering plants for pot-culture, of strong, luxuriant growth; one bulb is sufficient for a 6-inch pot. The great profusion of bloom produced in uninterrupted abundance for weeks is astonishing. The flowers are of the purest, bright buttercup yellow.

Bowiei. Brilliant rose **Hirta.** Rose-colored.

White (*O. multiflora alba*)

Price of any of the above, 3 cts. each, 25 cts. per doz., \$1.50 per 100

Mixed, containing a large number of varieties. 5 cts. for 3, 15 cts. per doz., \$1 per 100.

Oxalis

Spanish Iris

Spanish Iris

These exquisitely beautiful Irises are almost unknown in this country, yet they are perfectly hardy, of the easiest culture, and cheaper than crocuses. In England they are grown by the millions for cut-flowers. They bloom early in June and grow 15 to 18 inches high. They have a great combination and variety of color in the same flower. They are very diverse and of great richness, comprising all shades of blue, yellow and bronze, as well as pure white, and are highly useful for decoration and cutting. They should be planted about 5 inches apart. We advise all our customers to try a few hundred, and in large gardens they should be planted by the thousands. The stock we offer is exceptionally fine. These Irises can be bloomed in the greenhouse in the spring, but are not suitable for growing in the house.

	Per doz.	100	1,000
Belle Chinoise. Golden yellow.....	\$0 15	\$0 80	\$6 00

Tall English Delphiniums

We are tempted to say that the Improved English Delphiniums are the most beautiful hardy plants in cultivation, but we are also tempted to say this of a score of other things, and, of course, it is impossible to say which is the most beautiful of hardy plants, for they have such an immense variety of beauty that the wonder grows that people continue to plant, by the million, bedding plants which have little or no beauty, are an annual expense, and cost quite as much as hardy plants whose first cost is their only cost, and which increase in size, in beauty, and often in quantity, year after year. These Delphiniums may not be the most beautiful hardy plants, but they are among the most beautiful, and nothing can be more distinct and satisfactory. They are stately and picturesque, some varieties growing 8 feet high in rich soil; they have immense spikes of most beautiful flowers of every imaginable shade of blue, and their season is a long one; in fact, they will bloom from spring till fall if properly treated.

CULTURE OF DELPHINIUMS.—The culture of Delphiniums is exceedingly simple, and the results out of all proportion to the slight amount of care necessary. They thrive in almost any position, and may be planted at any time of the year, provided that in summer the plants are not too forward, and that they be well watered if the weather be dry. The soil may be a rich, friable loam, which suits them finely; but any soil, even hot and sandy, if well watered and manured will give excellent results. Dig deeply—trenching is better,—add plenty of well-rotted manure, and plant about 2½ feet apart. Placed in lines, as a background to a border, or in groups of, say, three plants at intervals, the effect of the Delphinium is exceedingly fine. They look well in beds, also, arranged at the same distance apart each way. They are grand grown in masses of large groups of separate colors, and may be associated with shrubs with great advantage, succeeding well in shrubberies because of their robustness. A succession of flowers may be expected from spring to early autumn, especially if the spikes which have done flowering early be cut down to the ground; fresh growth will then be produced which will give blossom. Copious watering in summer will be attended by increased size of spike and flower; in fact, in seasons of prolonged drought, water is absolutely a necessity on many soils if the varieties are to exhibit themselves in their true size and beauty of flower and spike. Top-dressing is greatly recommended on certain soils, instead of the bare surface of the ground being left exposed to the sun. Some of the neater dwarf alpine and other hardy plants may be utilized to plant between and around Delphiniums. Coal ashes strewn over the crowns will protect the plants from slugs through winter and spring. As we have intimated, any garden soil suits the Delphiniums; it is, however, necessary to secure sorts such as are offered below in order to obtain an effect superior to that afforded by the old smaller-flowered varieties. No amount of liberal treatment will cause the smaller-flowered kinds of a few years back to develop into the gorgeous hybrids of today.

SPECIAL OFFER OF IMPROVED ENGLISH DELPHINIUMS

I want every one who receives this price-list to try these improved English Delphiniums, and to that end offer them at extremely low prices. I guarantee that they will give unqualified satisfaction in every instance and will be a revelation of beauty to most people.

Specimen plant of Improved English Delphiniums

Standard Sorts

- Belladonna.** The freest and most continuous blooming of all, never being out of flower from the end of June until cut down by hard frost. The clear turquoise-blue of its flowers is not equaled for delicacy and beauty by any other flower. 25 cts. each, \$2.50 per doz., \$16 per 100.
- Chinense.** A very pretty variety, with fine, feathery foliage and intense gentian-blue flowers in open panicles. 15 cts. each, \$1.50 per doz., \$10 per 100.
- Chinense album.** A pure white form of the above. 15 cts. each, \$1.50 per doz., \$10 per 100.
- Formosum.** The old favorite dark blue with white center; 3 to 4 feet high. Very vigorous, free-flowering, and one of the best. 15 cts. each, \$1.50 per doz., \$8 per 100.
- Formosum caelestinum.** Charming light blue variety of above; most exquisite shade of blue. 15 cts. each, \$1.50 per doz., \$8 per 100.

New Phloxes

The following are the best new Phloxes recently received from Europe.

- Antonin Mercie.** Light ground-color, one-half of each petal suffused bluish lilac.
- Asia.** One of the prettiest in the collection. A delicate shade of mauve, with a crimson-carmine eye.
- Baron Van Dedem.** Brilliant cochineal-red with salmon shadings; a rich color.
- General Van Heutsz.** Brilliant salmon-red, white center. 25 cts.
- Goliath.** A giant in growth, in rich soil 5 feet high; bright crimson-carmine, with deeper eye.
- Gruppenkonigen.** Clear flesh-rose, with deeper eye; lovely. 25 cts.
- Lady de Grey.** Deep purple, with crimson eye; dark foliage; 4 ft.
- Lady Grisel.** White, shaded soft gray; buds violet; 3½ feet; *extra fine*.
- Lady Molly.** Soft pale pink flowers of perfect form; 2 feet; *extra fine*.
- Lady Satanella.** Very large flowers of a glowing orange; 3 ft.; *extra fine*.
- Meteor.** Lovely shade of soft salmon-rose; 3 ft.; *extra fine*.
- Rynstrom.** A splendid improvement on Pantheon; color not unlike that of Paul Neyron rose; fine for massing.

except where noted, 20 cts. each, \$2 per doz.

Hardy Perennial Phloxes

The beauty and usefulness of these grand border plants give to them a deservedly first place among hardy plants. For cutting, their large trusses go a long way in floral decoration. In color they range from pure white to the richest crimsons and purple, and from soft rose and salmon to bright coral-red, all having a delicate fragrance. **Perennial Phloxes** succeed in almost any soil enriched with manure, but are much benefited by a mulching of decomposed manure in spring, and in hot weather an occasional soaking of water. If the first spikes of bloom are removed as soon as over, and the plant given a good soaking of water, they will produce a second supply of flowers, thus continuing the display until late in autumn. These later blooms are often finer than the first.

Field-grown plants, 15 cts. each, \$1.50 per doz., \$10 per 100, except where noted

Adonis. China-rose, large carmine eye.

A. G. McKimmon. Early-flowering; purplish lilac; large truss.

Albion. Strong, vigorous grower; large panicles of pure white flowers with faint red eye.

Athis. Tall; best salmon.

Aurore. Brilliant orange-crimson, bright crimson eye; a very showy variety.

Bacchante. Crimson, with carmine eye; dwarf and very bushy; full-flowering.

Beranger. Rosy white, suffused gray; very delicate shade; lovely.

Boule de Feu. Bright rosy red, dark center.

B. Comte. Brilliant rich French purple.

Champs Elysees. Fine, rich purplish crimson.

Charlotte Saison. White, red center; large panicles.

Cheswick. Salmon, bright crimson center.

Comet. Rich, dark crimson, the richest-colored of all Phloxes.

Defiance. Bright, deep red; one of the best.

Eclaireur. Bright purplish rose, light center; enormous flowers.

Eiffel Tower. Large flowers; fine salmon.

Etna. Brilliant crimson.

Eugene Danzanvillier. Lilac, shading white at edges.

Frau Antoine Buchner. The finest white yet introduced; largest truss and individual flower. Dwarf. 25 cts. each.

Miss Lingard Phlox

Perennial Phlox

Frau Waldeck. Pure white; very large.

Forerunner. Early-flowering; white, suffused rosy purple.

Helena Vacaresco. A free, large-flowering dwarf white.

Hermine. Very dwarf, pure white.

Kossuth. Rose, maroon center.

Lothair. Fine crimson.

La Neige. Pure white.

Paniculata. Rosy purple; fine for naturalizing.

Miss Cook. White, pink eye; early.

Miss Lingard. The best Phlox in cultivation. It produces immense heads of beautiful white flowers in June, and blooms again in September and October. Splendid foliage and habit, and free from attacks of red spider. 20 cts. each, \$2 per doz., \$15 per 100.

Moliere. Salmon-rose, with deep rose eye.

Mrs. Dunbar. White, with purplish rose eye.

Mrs. Jenkins. Early-flowering; white; immense panicles.

Mrs. Miller. Early-flowering; lovely purplish rose.

Obergartner Wittig. Light rose, center lighter; red eye.

Pacha. Deep rose, with brighter eye.

Prof. Schliemann. Good, clear pink.

Rosalie. White, blush center; delicate and distinct.

Rosenberg. Bright reddish violet, with blood-red eye; individual flowers as large as a silver dollar.

R. P. Struthers. Brilliant rosy red, with crimson eye.

Splendens. Brilliant glowing crimson; splendid color.

Siebold. Orange-scarlet; very brilliant; good habit; a great improvement on "Coquelicot" in every way. 20 cts. each.

Sunshine. Aniline-red, with crimson eye and light halo.

Thos. G. Glover. White, with carmine eye.

NEW PHLOX, ELIZABETH CAMPBELL

This is the best Phlox introduced in recent years and is destined to become very popular. Very bright salmon-pink, with lighter shadings and dark red eye; very beautiful. 25 cts. each, \$2.50 per doz.

German Iris

In the Iris family the German varieties rank second in importance, the magnificent Japanese Iris being first, of course. They bloom profusely early in May, are of the greatest hardiness and easiest culture, and should be freely planted in every garden. These Irises are the "Flags" of the old-fashioned gardens. They are most effective when used as edging for a shrubbery or garden border. There are no pure white varieties.

Named Varieties. 15 cts. each, \$1.25 per doz., \$8 per 100, unless otherwise noted.

Mixed Varieties. 10 cts. each, 75 cts. per doz., \$5 per 100.

Albatross. Standards are white, shaded with palest blue; falls white, tipped purple; a very lovely variety.

Canary Bird. Pale yellow; lovely.

Charlotte Patti. Standards lemon-yellow, falls same, veined reddish brown; dwarf.

Dalmatica. Delicate lavender. Tall, vigorous plant with very large flowers; one of the finest of all Irises. 25c. each, \$2.50 per doz.

Dalmatica, "Khedive." Pale blue. 25 cts. each, \$2.50 per doz.

Darius. Large; yellow and lilac, large flowers.

Donna Maria. White, tinged lilac.

Florentina alba. Silvery white; early.

Fragrans. Lovely white, edged with violet.

Gluck. Standards white, falls purple. Extra-large flowers for cutting

President Thiers. Bronze-purple standards, dark purple falls. A most distinct, richly colored flower.

Her Majesty. Lovely rose-pink. A variety of great distinction and beauty. 35 cts. each.

Honorable. Yellow, falls brownish maroon.

German Iris

Madam Chereau. Pearly white, daintily edged with lavender.

Kharput. Extra-fine blue. 20 cts. each.

Queen of May. Lovely rose-lilac. 35 cts. each.

Queen of the Gypsies. Standards bronze, falls light purple.

Alvares. Standards light purple; falls dark velvety purple.

Ada. Standards dark bronze, falls dark maroon.

Japanese Iris

Some years ago a set of Japanese Iris (*I. Kämpferi*) was sent to us from Japan to test, which was said to be identical with the collection in the Royal Gardens. We cannot vouch for this statement, as we have never been in Japan, but we have never seen another collection in America or Europe that would equal it in any way. The collection contained many colors and varieties we had never seen before, and the flowers were of remarkable size and beauty. When these Irises were in bloom they excited the greatest admiration and enthusiasm and it was hard to convince people that these unique and exquisitely beautiful flowers were as hardy as apple trees, and as easily grown as potatoes. They will thrive in any good garden soil, but if the soil is made very rich and deep, and flooded with water for a month before and during their blooming season, they will produce flowers of a wonderful size, sometimes 10 to 12 inches across. These Irises should be planted in full exposure to the sun. As the Japanese names are unintelligible and impossible to remember, we have renamed this collection.

Since the above collection was received we have annually added to it the newest varieties from Japan and new varieties selected from thousands of seedlings grown on our own grounds, until we now have what is unquestionably the finest and most complete collection of Japanese Iris in the world.

PRICES OF JAPANESE IRIS

Named varieties, described in the following list, 25 cts. each, \$2 per doz., \$13 per 100, except where noted.

American-grown, fine mixed, without names, \$1.25 per doz., \$6 per 100, \$50 per 1,000

Alice Kiernan. Single. White, suffused with pale blue, center white, edged blue; extra large and fine; loveliest variety in cultivation. 50 cts. each, \$5 per doz.

Allegheny. Double. Pale lavender, striped white; late. 35 cts.

Amoret. Double. Blue, blotched and mottled with dark blue and reddish plum, yellow bar at base; late.

JAPANESE IRIS, continued

Apollyon. Double. Reddish plum, striped white, base of petals yellow; large and fine.

Aurora. Single. White, freely striped and suffused with magenta.

Blue Flag. Double. Indigo-blue, base of petals yellow; the last variety to bloom. 75 cts. per doz., \$5 per 100, \$40 per 1,000.

Captain C. W. Brown. New. Single. Extra large; pendulous petals; white, striped crimson-maroon; vigorous, tall. 75 cts. each.

Coquette. Double. Magenta, yellow center, feathered lilac.

Cygnets. Single. Purple and plum, blotched white.

Delight. Single. Dark rose, purple at base of petals.

Dorothy. Single. Light maroon, blotched white.

Edward A. Woods. New. Single. Dark maroon, shading to white at margin of petals; extra large and distinct. \$1 each.

Esmeralda. Single. Magenta, penciled white, center white.

Gigantea. Double. Bluish purple, lightly striped white; vigorous grower and free bloomer. The earliest-flowering variety in the collection.

Glow. Double. Crimson-maroon; large and fine. 50 cts. each.

Harlequin. New. Three petals, large flower; delicately suffused and spotted with maroon, variable, sometimes splashed with large blotches of maroon. \$1 each.

Heart of Gold. Double. Extra-large, white flowers, yellow center.

Hermione. Single. White, maroon center, petals penciled with blue.

Hobart J. Park. New. Six petals; extra-large flower; white, lightly suffused with blue, center pale pink; extra fine. \$1 each.

Ida. Reddish plum, rich and velvety, narrow yellow band on base of petals. 50 cts. each.

James R. Mellon. Double. Extra-large flower; lilac, striped with purplish blue, purple center; distinct and fine.

J. C. Slack. Double. Lilac, heavily blotched with magenta and blue, yellow center; distinct.

J. Walter Thompson. New. Six petals; white striped and heavily margined light maroon, base of petals yellow. \$1 each.

Kitty. Single. Slightly suffused with pale blue. 50 cts. each.

Lorna Doone. Double. White, delicately penciled with blue, yellow band at base of petals, blue center.

Mary Shattuck. New. Single. Rosy lavender, striped with violet; very lovely. \$1 each.

Mont Blanc. Double. Pure white; large and fine. One of the finest of the white varieties.

Moonlight. Double. White flower, with yellow center; rich and dainty in effect.

Mrs. Henry L. Higginson. Single. Bright reddish maroon, center white.

Mrs. J. H. Ballantine. Single. Extra-large, white flower, delicately suffused with pale blue, margins of petals pure white; fine. 50 cts.

Mrs. Morris Brandon. New. Double. White, penciled deep blue, center dark purple; late and fine. 50 cts. each.

Mrs. William P. Snyder. New. Six petals; dark maroon, velvety texture; very late; extra fine. 50 cts. each.

Mrs. W. R. Massie. New. Single. Light maroon, blotched white; lovely. \$1. each.

Octavia. Single. White, dark center, petals distinctly netted with blue.

Purity. Double. Large; pure white; strong, vigorous plant.

Queen of the Whites. Double. White; vigorous grower.

Romola. Single. Lilac, striped with plum, plum center.

Rosalind. Double. Light purple, freely striped with white.

Snowdrift. Single. Pure white.

Springdale. Single. Bluish purple, slightly striped white. Exceedingly handsome.

W. H. Buttfield. Double. Center of petals white, heavily margined with magenta; vigorous grower.

Wm. F. Dreer. Double. White, penciled with lavender.

Wm. J. Matheson. Double. Reddish plum, base of petals yellow; large and fine.

New Irises

Siberian Irises

Sibirica, Snow Queen. An exquisite new hardy Iris; the flowers are of a snowy whiteness, large and well formed, produced in great abundance; foliage light and graceful. A gem for flower-border or waterside. 3 feet high. **Award of Merit, R. H. S.,** June 24, 1902. 15 cts. each, \$1.50 per doz.

Sibirica superba. Large, violet-blue flowers; handsome foliage. Fine border plant and a grand subject for planting near water. 10 cts. each, \$1 per doz.

German Irises

Stylosa innocenza. Exquisitely beautiful white flowers, tinted with blue and yellow; almost pure white; a color never before obtainable in German Irises. 20 cts. each, \$2 per doz.

Aurea. A pure, rich, deep yellow; very distinct and fine. 35 cts. each, \$3.50 per doz.

Dwarf Bearded Irises

These Irises have flowers similar to the German Iris, but are much dwarfer and bloom in April. They are extremely free-flowering and desirable.

Socrates. Bright claret-red, falls deeper claret, beard yellow. 25 each.

Orange Queen. Beautiful clear yellow, with orange beard. 10 cts. each, \$1 per doz.

Native Irises

Pseudacorus. Semi-aquatic variety; valuable for planting in swamps and on the edge of ponds; vigorous plant with lovely yellow flowers. 15 cts. each, \$1.50 per doz.

Pseudacorus variegata. Same as above, with variegated foliage. 15 cts. each, \$1.25 per doz.

Versicolor. The Common Blue Flag of our swamps and meadows; valuable for naturalizing. 10 cts. each, \$1 per doz., \$6 per 100.

Iris pumila

These beautiful little Irises do not grow over 4 inches high, and bloom in April and May. They are fine for bordering flower-beds or planting in front of the tall Irises. Mixed varieties. 10 cts. each, \$1 per doz., \$6 per 100.

JAPANESE TREE PEONIES

If you wish something to try your gardening skill and patience, and to astonish your friends with, by all means plant a group of Japanese Tree Peonies. A lady who had seen them in bloom for the first time wrote: "Their wondrous beauty is electrifying; I am like the countryman who saw a giraffe for the first time and said, 'There ain't no such beast!'" Truly these Peonies are wonderful. Great, semi-

double flowers almost as large as dinner-plates, of the most exquisite coloring and texture. The petals are like the finest India silks, and the colors range from pure white to bright crimson, including the softest and loveliest shades of pink. But these glorious plants, like the Japs who raise them, have some serious faults. They bloom so early that the buds and flowers must be protected from late frosts; but their great drawback is that they are grafted on a miserable purple variety of little beauty but great vigor, and, unless watched almost night and day, the "suckers" from the root soon choke out the graft. It is said that this suckering can be discouraged by deep planting. The French growers graft on herbaceous Peonies, which do not sucker; but their varieties are in no way comparable with the Japanese. We are making a large importation of these Peonies in the winter, and orders will be delivered early in the **spring**. \$1.50 each, \$15 per doz.

Tree Peonies

COLORED DRAWINGS

We have a set of colored drawings of the above Japanese Tree Peonies, which we will send for examination on receipt of 10 cents to cover mailing charges.

PEONIES

It gives us great pleasure to see the increasing popularity of Peonies, for there is nothing more deserving, and, when the merit and beauty of the newer varieties are known, every garden will contain a large collection. Like the Irishman's whiskey, all varieties of Peonies are good, even the commonest old-fashioned sorts, but there is no language to describe the glorious beauty of the finest of the newer varieties. In no other flower has there been such a marked improvement, and they actually surpass the rose in size, form and coloring, and their ease of culture and extreme hardiness are too well known to enlarge upon. Always having a keen appreciation of these superb flowers, we have for years collected all the varieties obtainable in the world, and now have the largest collection of varieties and the most extensive stock in America. Peonies planted in August or September will bloom the following season. Of many varieties offered in the following list, we can supply large, undivided clumps at from three to five times the prices quoted—prices depending upon how many salable plants the clumps would make if divided. By planting these undivided clumps a fine display of flowers can be had next season. Price-list of undivided clumps sent on application.

Tree Peonies

	Each	Per doz.
Best Named Varieties. 2 years old.....	\$1 25	\$14 00
Best Named Varieties. 3 years old.....	1 75	18 00

Arborea. Not a very fine tree Peony, but one that everybody can grow. Large, showy, purple flowers. Extra-strong plants.....		
	1 50	16 00

Tree Peonies are for the enthusiast, for the man who is willing to take extra pains to have something rare and beautiful, and if he succeeds with these lovely things he is sure that he has flowers that will never become commonplace. Tree Peonies do not die to the ground every year, and eventually make quite large bushes.

Single Peonies

The merit and great beauty of Single Peonies has been largely overlooked. Planted in masses they are more effective than the double varieties, and fully equal them in the beauty of individual flowers. They come into bloom earlier and last longer.

Admiral Togo. (Jap.) Purplish rose center filled with bright yellow ligules; extra large and fine. Plant extremely vigorous and continues longer in bloom than any other variety. Three-year-old plants Each	Per doz.

Cyclops . Purple-crimson. First-class certificate, R. B. S.	30	
Duke of Cambridge . A very handsome bright crimson flower;		
a superb variety; the very best of its color.....\$8 per doz...	75	
Duke of Devonshire . A large variety of deep rose-color,		
with large outer guard petals. Award of Merit, R. H. S....	1 00	
Euboles . Light pink, with broad guard petals.....	35	
Lord Roseberry . Crimson; very fine.....	1 50	

Mixed Peonies

We have a few hundred Peonies from which the labels are lost. We supply these at 20 cts. each, \$2 per doz., \$14 per 100.

Special Offer of Named Peonies. We have a good many Peonies in choice named varieties, in strong roots, a few of each, not enough of a kind to catalogue. They are worth from 50c. to \$1.50 each. We will supply these in a good assortment, our selection, labeled, at 40 cts. each, \$4 per doz., \$25 per 100.

A Garden of Lilies

A correspondent complains that we have told him too often of the lawyer's garden; but it is still the best garden in this vicinity, and a good garden cannot be told about too often.

Our friend the lawyer, has a garden of Lilies. Many other things he has in his garden—great banks of Mollis and Ghent azaleas that are worth a long journey to see; an entire hillside is covered with hybrid rhododendrons and *Kalmia latifolia*; tulips, daffodils and crocuses are everywhere in the spring, and the glorious show of Japanese irises in June is a sight not easily to be forgotten—but he has Lilies by the hundred and by the thousand, and in so many varieties that from June until November there is always a fine display of Lily flowers. Such a garden! By daylight it is splendid, by moonlight it is fairyland, and the air is filled with fragrance. Such a garden to visit, as we do visit it and travel forty miles a dozen times a year, and come away with our arms filled with great stalks of Lily bloom. For this is a garden in which there are always flowers to cut and to spare. It is not the miserable garden of bedding plants in which its owner finds it difficult to cut a little nosegay to give to a friend. We wish you who are content to grow such commonplace things of so little beauty as cannas, geraniums, coleus and alternantheras, could visit this garden of Lilies, and then say what excuse you have to offer for your poor taste. Not that of cost, for Lily bulbs are to be had for as little money as bedding plants; and as Lilies are hardy, their first cost is their only cost, while bedding plants must be bought every season.

Lilium longiflorum

Some Good Lilies

There is a tendency to plant little else but the Auratum and Speciosum varieties of Japanese Lilies, which are very beautiful, but do not bloom until after the middle of July, and there is a host of June-blooming Lilies that should be found in every garden, and none more beautiful than our graceful, dainty little native Lily, *Canadense*, with its spotted red or yellow flowers. Nothing finer for naturalizing in meadow or orchard. It will thrive in the wettest ground, and so will the splendid *Superbum*, also a native Lily, blooming the end of June or early in July. We have seen the plants of this 8 feet high, with 30 or 40 flowers. All varieties of *Thunbergianum* (*Elegans*) and *Umbellatum* Lilies bloom in June, and none are more vigorous and hardy or showier when planted in large clumps, and they are abundantly able to take care of themselves in almost any situation; and so are all varieties of Tiger Lilies, which make bold and most effective groups. A Japanese Lily, not so well known, is *Hansonii*, but one of the most distinct and desirable. It has a trick, however, of remaining dormant for a year after it is planted; in fact, I think it always does this if planted in the spring. *Henryi*, the new variety from Japan, is wonderfully vigorous and fine when established, but as yet the bulbs are extremely scarce and difficult to get. *Brownii* and *Excelsum* are two lovely Lilies, but the bulbs are getting very scarce and high-priced.

Fall Planting of Lilies

Lilies are better for being planted in the fall; but many varieties from Europe and Japan often arrive after the ground is frozen and cannot be planted until spring unless special preparation is made. By covering the ground to be occupied with Lilies with a few inches of stable manure it can be kept from freezing until the latest Lilies arrive. The manure can then be removed, the Lilies planted and the ground again covered with 2 inches of manure which should be allowed to remain permanently. We deliver all Lilies just as soon as they arrive unless they arrive after the 25th of November, when we will hold them until spring unless specially instructed to ship them later. Please keep this price-list for reference and do not write complaining letters about the late delivery of the Lilies. We always ship them at the earliest possible moment and can not ship them before they arrive.

Lilies like a light, rich, well-drained but moist soil, and a partially shaded location. If planted in full exposure to the sun, the bed should be carefully mulched with 2 or 3 inches of rotted manure, leaves, sphagnum or moss. They thrive and are very effective when planted thickly among rhododendrons or azaleas, and may be used to advantage in any open space that may be in the shrubbery. Bulbs should be planted 6 inches deep and care taken that no manure comes in direct contact with them. Planted in quantity, they may be had in bloom from June until frost, and bloom freely the first season after planting.

Rubrum, Melpomene, Album and many other Lilies will thrive and increase in almost any soil, but Auratum Lilies deteriorate and a percentage will be lost every year; but they are so truly splendid, and are so inexpensive at the low prices at which we offer them, that they will be found to be the best garden investment that can be made. Try these Lilies, and send your order at once, so that they can be sent to you immediately upon their arrival from Japan. Longiflorums are similar in appearance to the Bermuda Easter Lilies, but are much more satisfactory for outdoor planting, as they are perfectly hardy.

The Auratum Lily and its varieties are the grandest and showiest of all Lilies but unfortunately are subject to the Lily disease which is liable to destroy them at any time, and people who plant them must be prepared to replant them frequently.

Special Offer of Superbum Lilies

We make an annual contract to have 25,000 bulbs of this grand Lily grown for us. This enables us to offer it at low prices, which makes it available for naturalizing in quantity. It is unquestionably one of the most satisfactory Lilies that can be planted either in the garden or in meadows, on the edge of woods or in any rough or wild parts of the grounds, where it will take care of itself without any attention whatever after planting. It will also thrive in wet or swampy places. It is a grand Lily, often growing over 8 feet high, and produces twenty to thirty beautiful orange-red flowers in July, when flowers are apt to be rather scarce.

Prices of extra selected bulbs, \$1.25 per doz., \$2.25 for 25, \$7.50 per 100, \$18 for 250, \$30 for 500, \$55 per 1,000

PRICES OF LILIES

These prices include all charges except freight or express charges from Pittsburg. The measurements given refer to circumference of bulbs, but the Japanese evidently use an elastic tape, as the bulbs never quite come up to the measurements given. I give these sizes as they are generally used by the trade. We guarantee safe delivery in good condition of all varieties except Auratum when shipped by express. We repack all Auratum Lilies when received and ship nothing but perfectly sound bulbs, but cannot guarantee results in any way, or even that they will arrive in good condition.

	Per doz.	100		Per doz.	100

			Monsters.....	3 00	23 00

The Speciosum varieties are exceedingly beautiful and desirable and perfectly hardy and reliable.

RARE VARIETIES OF AURATUM LILIES

The rare varieties of Auratum Lilies are extremely beautiful, but so difficult to handle and cause our customers so much disappointment that we have decided to no longer list and only to import them on special orders, and then entirely at the risk of the buyer.

Special Notice

Lily bulbs will be forwarded as they arrive. As a rule we can furnish Candidum and Harrisii from end of August on. Canadense, Elegans, Longiflorum, Superbum and Tenuifolium and all American-grown Lilies, from end of September on. The entire balance of Japanese and European Lilies in late October and November.

All varieties of Japanese Lilies except Longiflorum are usually received early in November. They are liable to delays of steamers, freight blockades, etc., and we advise the preparation of the Lily beds or borders early in autumn, covering them with 4 to 6 inches of manure, leaves or litter of any kind. This will keep them open and admit of the planting of the bulbs even if not received until December. No Lilies will be shipped after the 25th of November unless special instructions are received to ship later.

ELLIOTT NURSERY

J. WILKINSON ELLIOTT

MAGEE BUILDING. 336 Fourth Avenue

PITTSBURG, PA.

Hardy Plants for June and July Delivery

For the convenience of those who wish to plant in June and July, we have prepared the following plants for delivery during these months. The majority of them are pot-grown, and the others have been prepared for transplanting. Plants offered at \$1.25 and \$1.50 per doz. are 15 cts. each; plants at \$2 per doz. are 20 cts. each.

ANCHUSA ITALICA

Dropmore Variety. A grand improvement on the original type of *A. Italica*, or Italian Alkanet, and a plant which, on account of its remarkable freedom of flowering and its beautiful blue color, is sure to become one of our most popular hardy perennials. It attains a height of 5 to 6 feet, and produces its pretty blue flowers, which are from 1 to 1½ inches in diameter, throughout the entire summer. 25 cts. each, \$2.50 per doz.

Lissadell Variety. In every point an improvement of the now well-known Dropmore variety. The habit is more robust, the color of the large flowers, measuring 1½ inches across, still more brilliant. A great acquisition. 30 cts. each, \$3 per doz.

Anemone Japonica

ANEMONE

These charming Japanese Anemones are among the most beautiful things in cultivation. They are perfectly hardy and, in a strong, rich and heavy soil, will grow 4 to 5 feet high. They are a mass of beautiful white or pink bloom from late summer until heavy frosts. They should be in every garden, and on large places should be planted by the hundred. They will bloom the same season as planted.

Strong, pot-grown plants, \$1.50 per doz., \$8 per 100

Japonica alba. White. Grows 3 to 5 feet high.

Japonica, Whirlwind. Semi-double, white variety.

Japonica, Queen Charlotte. Large, semi-double, pink flowers.

Japonica rubra. Rosy purple.

Campanula rotundifolia Hostii

A beautiful variety of "Blue Bells of Scotland." 15 cts. each, \$1.50 per doz.

Aster Novæ-Angliæ rubra

Everybody knows the wild Asters which make such beautiful pictures along the roadsides in the fall, but this splendid large-flowered variety does not grow wild throughout the country. Either for naturalizing, for the garden, or for planting among shrubbery, there is no finer fall-flowering plant. \$1.50 per doz., \$10 per 100.

HARDY BAMBOOS

The following Bamboos have proved perfectly hardy in the latitude of Philadelphia.

Bambusa aurea has straight, erect, slender stems, with very short internodes, which have attained heights of 12 to 15 feet in this country. One of the most graceful of the genus; effective when planted in large, bold masses. \$1 each; large plants, \$2.

Bambusa Japonica (Metake). One of the best known of all the hardy Bamboos. The stems are often 15 feet high, with internodes 6 to 8 inches long, and with tapering leaves a foot long, smooth and shining above, glaucous beneath. 50 cts. each.

Chrysanthemum, Pompon

These are the small-flowered Chrysanthemums of the old-fashioned gardens, and bloom in October and November, after almost all flowers are gone. They are showy in the garden and effective as cut-flowers, and, being perfectly hardy and of easiest culture, can be successfully grown in any garden. We offer a fine collection of the best varieties, ranging from white to deep crimson. 15 cts. each, \$1.25 per doz., \$8 per 100.

CLEMATIS

Integrifolia Durandi. A deep steel-blue, large-flowering Clematis, non-climbing, growing from 4 to 5 feet, flowering from June till October. Splendid novelty. Not subject to the Clematis disease. Nice plants, 75 cts.

Davidiana. This is a herbaceous plant instead of a climber, and has beautiful blue flowers and handsome foliage; very desirable. 20 cts. each, \$1.75 per doz.

Recta. A charming plant, growing about 2 feet high, with great masses of pure white flowers like those of *Clematis paniculata* in early summer. 25 cts. each, \$2.50 per doz.

Cerastium Biebersteinii (Snow-in-Summer)

Similar to *C. tomentosum*, but the flowers are very much more beautiful. The plant is dwarf and covers the ground with a mat of silvery foliage, which is almost evergreen. The starry flowers are white and extremely beautiful. They are produced freely in June. The plant is for the rocky, covering dry banks or edging borders. 15 cts. each, \$1.25 per doz., \$8 per 100.

CENTAUREA

Montana (Perennial Cornflower). Grows 2 feet high, bearing large, violet-blue flowers from July to September. 15 cts. each, \$1.50 per doz.

Montana alba (White Cornflower). 15 cts. each, \$1.50 per doz.

Coreopsis grandiflora

An improved variety, with large, bright yellow flowers; fine for cut-flowers; one of the best hardy plants in cultivation. 10 cts. each, \$1 per doz., \$6 per 100.

Cratægus Pyracantha Lalandi

This Thorn is one of the handsomest evergreen shrubs in cultivation, and there is none that bears such a showy crop of fruit in the fall and winter. This fruit is about the size of a pea, and bright orange-red in color, and the shrub is completely covered with it. In Europe it is frequently trained on the walls of houses like a vine. It is very effective used this way. This shrub is reliably hardy where the temperature does not go lower than five degrees below zero. Pot plants 50 cts. each, \$5 per doz.

HARDY FERNS

Varieties marked * require shade; those marked † succeed in open border.

15 cts. each, \$1.50 per doz., \$10 per 100

- Adiantum pedatum* (Maidenhair Fern).
- **Aspidium acrostichoides* (Wood Fern).
- **Aspidium marginale*.
- **Asplenium thelypteroides*.
- †*Dicksonia punctilobula* (Gossamer Fern).
- †*Osmunda cinnamomea* (Cinnamon Fern).
- †*Osmunda Claytoniana* (Flowering Fern).
- †*Osmunda gracilis* (Flowering Fern).
- †*Onoclea Struthiopteris* (Ostrich Fern).

FUNKIA (Day Lily)

Desirable foliage plants which will thrive in sun or shade.

- Variegata.** Variegated foliage; blue flowers. Beautiful edging plant. 1 foot high, blooming in May. \$1.25 per doz., \$7 per 100.
- Sieboldi.** One of the finest of hardy plants on account of splendid foliage. Grows 2 feet high and blooms late in summer. \$1.25 per doz., \$8 per 100.
- Aurea maculata.** Young foliage in early spring is of a bright yellow color. 20 cts. each, \$2 per doz.
- Subcordata.** Large, pure white flowers \$1.50 per doz., \$10 per 100.
- Marginata albo-variegata.** Very distinct variegated variety. 15 cts. each, \$1.50 per doz., \$10 per 100.

Festuca glauca

A dwarf grass with very distinct blue foliage. Does not grow over 8 to 10 inches high and is very effective. 15 cts. each, \$1.50 per doz.

Heuchera, Rain of Fire

We have thoroughly tested this new Heuchera and find it one of the most desirable hardy plants introduced in many years. It has the same habit and foliage as *Heuchera sanguinea*, but the color is a more brilliant crimson, and five or six times as many flowers are produced. Blooms in May, and when in bloom is about 15 inches in height. The flowers last for almost three months, which makes it very desirable. 25 cts. each, \$2.50 per doz.

Gaillardia grandiflora (Blanket Flower)

One of the showiest and most effective hardy plants, growing about 2 feet high and succeeding in any soil in a sunny position; beginning to flower in June, they continue the entire season. The large flowers are of gorgeous coloring. The center is dark red-brown, while the petals are marked with rings of brilliant crimson, orange and vermilion, and often a combination of all in one flower; excellent for cutting. 15 cts. each, \$1.25 per doz., \$7 per 100.

Pentstemon (Florists' Varieties)

Few plants are so beautiful as Pentstemons, or produce so brilliant an effect in beds and borders during summer and autumn. In growth they are graceful, while the elegant beauty of their pyramidal spikes of large gloxinia-like flowers from June to October elicits the admiration of all. Colors range from bluish-white, pink, salmon, rose and scarlet to violet and shades of purple. They thrive in any ordinary garden soil, in an open and sunny situation. Cuttings should be taken in autumn and planted out in spring, as the parent plants will survive the winter outdoors only in sheltered gardens. 20 cts. each, \$2 per doz.

HARDY PERENNIAL PHLOXES

The beauty and usefulness of these grand border plants give to them a deservedly first place among hardy plants. For cutting, their large trusses go a long way in floral decoration. In color they range from pure white to the richest crimson and purple, and from soft rose and salmon to bright coral-red, all having a delicate fragrance. Perennial Phloxes succeed in almost any soil enriched with manure, but are much benefited by a mulching of decomposed manure in spring, and in hot weather an occasional soaking of water. If the first spikes of bloom are removed as soon as over and the plant given a good soaking of water, they will produce a second supply of flowers, thus continuing the display until late in autumn. These later blooms are often finer than the first.

Pot-grown plants, ready for immediate delivery, 15 cts. each, \$1.50 per doz., \$10 per 100, except where noted

Athis. Tall; salmon; the tallest-growing of all Phloxes.

Miss Lingard. The best Phlox in cultivation. It produces immense heads of beautiful white flowers in June, and blooms again in September and October. Splendid foliage and habit, and free from attacks of red spider. 20 cts. each, \$2 per doz., \$14 per 100.

HARDY PERENNIAL PHLOXES, continued

Defiance. Brilliant crimson; one of the best.

Siebold. Orange-scarlet; very brilliant; good habit. Splendid.

Elizabeth Campbell. Very bright salmon-pink, with lighter shadings and dark red eye. New and very beautiful. 25 cts. each, \$2.50 per doz.

Mrs. Jenkins. White; immense panicles; very vigorous.

Le Soleil. Bright, clear pink; fine.

Beranger. Rosy white, suffused gray; very delicate shade; lovely.

Duqueslin. Deep rose, edged lilac.

Margaret Slack. Bright pink, red center. Dwarf and bushy; very free-flowering.

Boule de Feu. Bright rosy red, dark center.

Marquis de Breteuil. Bright pink, light center; very fine.

ORIENTAL POPPIES

I remember very well the first time I saw an Oriental Poppy. I was a boy then and it excited me wonderfully, and I thought it the most remarkable flower in the world; and now, after twenty-five years have gone by and I have seen almost all the known flowers of the world, I am still of the opinion that it is mighty fine, striking and effective, and I have taken the trouble to gather and have grown a collection of several varieties. The foliage of Oriental Poppies dies away in the summer, and many think they are dead, but they will start into growth again in the fall. They are rather hard to establish, but, once established, prove the most persistent perennial.

Saponaria ocymoides splendens

A charming creeping plant, even prettier than the creeping Phloxes. It is quite as free-flowering, and piles itself up in masses that are lovely beyond description; beautiful bright pink flowers produced in June.

STOKESIA

(The Cornflower Aster, or Stokes' Aster)

Cyanea. A most charming and beautiful native hardy plant, which for the past few seasons has been the most admired flower on our grounds. The plant grows from 18 to 24 inches high, bearing freely, from early in July until late in October, its handsome lavender-blue centaurea-like blossoms, which measure from 4 to 5 inches across. It is of the easiest culture, succeeding in any open, sunny position, and not only is it desirable as a single plant in the hardy border, but it can also be used with fine effect in masses or beds of any size. 15 cts. each, \$1.50 per doz., \$8 per 100.

Cyanea alba. Pure white variety of the above. 15 cts. each, \$1.50 per doz., \$8 per 100.

Tufted Pansies, or Bedding Violas

The tufted Pansies are hybrids of Pansies and *Viola cornuta*, and are quite distinct from Pansies in habit and coloring, and we think far more beautiful. The flowers are smaller, but unique in coloring, and the plants spread from the roots like a violet, making them true perennials. They are perfectly hardy, and endured the extremely cold weather of 1911-12 in an open border without protection. They are immensely popular in England and Scotland, where they are generally used for bedding and table decorations, and nothing can be more charming for either purpose. I have always admired these flowers in England, but was not certain that they would thrive in this climate, but after testing them a year in my garden I am convinced that they will do as well here as they do abroad. I have had a splendid lot of plants grown from the best collection in Scotland. They can be planted in the summer, fall or spring. Mixed colors, 15 cts. each, \$1 per doz., \$6 per 100.

Polygonum Auberti

A great improvement on the *Polygonum Baldschuanicum*. The flower-trusses are large, the flowers pure white; it grows still more rapidly, and does not suffer from the illness which makes the leaves wither and drop from the old variety. A plant in full flower gives the impression of being altogether covered with hoar-frost. 75 cts. each.

Mertensia Virginica (Blue Bells)

An early spring-flowering plant, growing about 1 to 1½ feet high, with drooping panicles of handsome light blue flowers, fading to clear pink. One of the most interesting of our native spring flowers. May and June. 15 cts. each, \$1.50 per doz.

Trollius, "Excelsior" (Globe Flower)

Little known, but one of the most desirable of hardy plants. Very free-flowering, producing their giant buttercup-like flowers from May until July. Color deep orange. 20 cts. each, \$2 per dozen.

Miscellaneous Hardy Plants

- ASTER ptarmicoides.** Dwarf, early-flowering, hardy Doz. 100
Aster, blooming in July and August. Its charming white flowers are produced in the greatest profusion. Distinct and good. \$1 50 \$8 00
- D. B. Crane.** Panicles of large flowers of a rich mauve shade, shot with rose; very handsome, dwarf and early. 1 50 10 00
- ASCLEPIAS tuberosa.** Orange-scarlet; one of the showiest and finest hardy plants grown. Grows 1 to 2 feet high, and blooms from July to September. 1 50 10 00
- ARRHENATHERUM bulbosum variegatum.** A neat and distinct new variegated grass which should prove very attractive in the rock-garden. 1 50
- ARMERIA maritima splendens** (Thrift or Sea Pink). Charming dwarf plant with pink flowers. 1 25 7 00
- AJUGA reptans atropurpurea.** Large spikes of purplish blue flowers in May. Valuable plant for the rockery and for carpeting the ground in shady places where grass will not grow. 1 25 7 00
- ACONITUM Napellus** (Monkshood). Beautiful but poisonous plant with blue flowers. 2 50
- Napellus bicolor.** Blue-and-white flowers; handsomest of all the Aconitums. 2 50
- COREOPSIS rosea.** A dwarf variety with pretty pink flowers. 1 50
- CALIMERIS incisa.** An attractive plant for the border; grows 12 to 18 inches high, producing from July to September daisy-like, pale lavender flowers with yellow centers. 1 50
- DIGITALIS purpurea** (Foxglove). Mixed colors. 1 50 8 00
- alba.** Pure white. 1 50 8 00
- ERIANTHUS Ravennæ.** Tall, striking hardy grass, with feathery plumes resembling the Pampas Grass. 2 50
- GYPSOPHILA paniculata** (Baby's Breath). When in bloom in August and September it forms a symmetrical mass 2 to 3 feet in height and as much through, of minute white flowers having a beautiful gauze-like appearance. 1 50
- HELIANTHEMUM mutabile** (Sun Rose). Charming dwarf evergreen plants with pink and white flowers. Height 6 inches; blooms in May and June. 1 75
- HELEBORUS niger** (Christmas Rose). 35 cts. each. 3 50
- IBERIS sempervirens nana** (Hardy Candytuft). Lovely dwarf plants that cover the ground with pure white flowers. 1 50 8 00
- MONARDA** (Bergamot). Very showy red flowers. Grows 2 feet high, and blooms from July to September. 1 25 8 00
- MONTBRETIA, Rayon d'Or.** Hardy; bulbous; with brilliant orange and scarlet flowers. 1 00 6 00
- PHYSOSTEGIA Virginica alba.** A beautiful white variety. 1 50
- PENTSTEMON barbatus Torreyi.** Brilliant crimson and orange flowers in July; one of the best hardy plants. Grows 3 to 5 feet high. 1 25 8 00

MISCELLANEOUS HARDY PLANTS, continued

- PLUMBAGO Larpentæ.** A dwarf plant covering the ground completely with its foliage. In September it is a mass of beautiful deep blue flowers, which gradually change to violet. Doz. 100 \$1 25 \$7 00
- RANUNCULUS acris fl. pl.** A double-flowered form of our common buttercup. Clear yellow flowers in May and June; dainty and beautiful. 1 50
- RUDBECKIA purpurea.** Large, crimson-maroon flowers; very distinct. 1 75
- speciosa.** Native. One of the very best border plants in cultivation. A group of "Golden Glow" surrounded by this variety makes a splendid effect. Grows 2 to 3 feet high; blooms from July to September. 1 25 8 00
- SAPONARIA officinalis fl. pl.** A very desirable double pink-flowered variety of "Bouncing Bet." Each, 15 cts. 1 50
- SEDUM spectabile.** A fine, tall-flowering plant with great heads of purple flowers in September. 1 50
- SHASTA DAISIES.** Large, pure white, single flowers. 1 00 7 00
- TUNICA Saxifraga.** A pretty tufted plant, with light pink flowers, produced all summer; useful either for the rockery or the border. Each, 20c. 2 00
- VERONICA spicata.** Violet-blue flowers in long spikes; dwarf habit. 1 50
- Spicata alba.** Pure white variety. 1 50

JAPANESE MAPLES

The Japanese Maples are of dwarf habit, rarely growing over 5 or 10 feet high, and are entirely hardy in the latitude of New York. The rich and glowing color of the leaves in spring and early summer makes them the most beautiful objects that can be planted on a lawn. A group of them during the months of May and June is a sight to be remembered. There are many varieties, all of which we can supply when desired; but the varieties offered below are the most beautiful and satisfactory of them all, and there is no place so small that should not have at least one of these exquisite dwarf trees. The stock that we offer is American-grown, and is much superior to the cheap imported Japanese stock, which we consider almost worthless.

- Each \$3 50
- Acer Japonicum filicifolium.** 4 to 5 feet. 2 00
- dissectum.** Green, cut-leaved; very beautiful. 2 00
- dissectum atropurpureum.** Purple, cut-leaved, 2½ feet. 2 00
- atropurpureum** (Blood-leaved). Fine pot-grown plants. Per doz., \$20. 2 00
- Splendid specimens, 4 feet. 3 00
- Splendid specimens, 5 feet. 4 00

Extra-Fine Specimen Magnolias

The Chinese Magnolias are the most beautiful of all spring-flowering trees, but as ordinarily grown in American nurseries almost impossible to transplant successfully. The following, imported from Europe, have been specially prepared for transplanting, and are certain to grow. Can be shipped in June and July safely.

- Fine Bushy Specimens,** specially prepared for transplanting, in the following varieties: **Alexandrina, Soulangeana, speciosa, speciosa nova** and **alba superba.** Each, \$2.50.
- Lennei.** Reddish purple. \$4.

AZALEAS

- Amœna.** A dwarf, compact evergreen variety, with rosy purple flowers; makes a beautiful specimen or can be used for an ornamental hedge. 6-inch pots, \$1 each, \$11 per doz.
- Hinodegiri.** This new Azalea is similar to *A. amana* but hardier, and the flowers much more brilliant. It makes a beautiful, dwarf evergreen shrub. The flowers produced in the spring are a bright fiery red. 6-inch pot plants, \$1 each, \$11 per doz.; 7-inch pot plants \$1.50 each, \$16 per doz.
- Ledifolia alba.** Lovely pure white evergreen Azalea, said to be hardier than *A. Hinodegiri*. 6-inch pot plants \$1.50 each, \$16 per doz.

SALVIA (Scarlet Sage)

- Improved Dwarf.** Spikes of brilliant scarlet flowers. \$1.25 per doz., \$8 per 100.
- Splendens.** The old-fashioned, tall-growing variety. \$1.25 per doz., \$8 per 100.
- Officinalis** (Sage). The well-known herb. 75 cts. per doz.

Hardy Climbing Plants

	Each	Doz.	100
AMPELOPSIS Veitchii	\$0 20	\$1 75	\$12 00
Extra-strong, pot-grown plants	35	3 50	
quinquefolia (Virginia Creeper)	20	2 00	11 00

VITIS odorata. Sweet-scented Wild Grape	20	2 00	
Labrusca. Wild Grape	20	2 00	
Cordata. Wild Grape	20	2 00	

Climbing Hydrangea

We have at last succeeded in getting a stock of the rare *Schizophragma hydrangeoides*, known as the Climbing Hydrangea. It is one of the rarest and most beautiful vines, having large flower-heads similar to those of *Hydrangea Hortensia*, and will make a most splendid adornment to the porch. Fine, strong, pot-grown plants, 50 cts. each, \$5 per doz.

GLADIOLI

Gladiolus bulbs can be planted as late as the 20th of June and be had in bloom in the fall.

	Doz.	100
Seedlings. Mixed all colors	\$0 35	\$2 25
Mixed Gladioli. Good quality; all colors	30	2 00
White and Light Gladioli. Finest quality made up from the choicest named varieties	75	4 50
Pink Gladioli. Best quality	35	2 25
Yellow and Orange Gladioli	70	5 00
Striped and Variegated	60	4 00
New Gladioli Childsii. Best quality mixed	50	3 50
Red and Scarlet Gladioli. Splendid for massing in shrubberies and borders		2 00
White and Light Gladioli. A choice mixture made from all named Gladioli; equal to what is generally sold at four times the price		2 50

XXX MIXTURE

An especially fine mixture, made up of over 100 fine named varieties of Gladioli, and includes also a good percentage of Childsii Hybrids. Just the stock for those who want only the very best that can be possibly had. First size, 50 cts. per doz., \$3 per 100, \$25 per 1,000.

Hardy English Ivies

We have a fine stock of pot-grown plants suitable for early fall or spring planting. These Ivies are hardy if planted against a north wall. 25 cts. each, \$2.50 per doz., \$16 per 100. Extra-strong plants, 40 cts. each, \$4 per doz.

Scotch Broom

A beautiful variety of Genista, with yellow flowers marked with red. 5-inch pot plants, 30 cts. each, \$3 per doz.

Hardy Roses in Pots

We can supply a good assortment of Hybrid Perpetual or Hardy Roses from 5- and 6-inch pots for June delivery. 50 cts. each, \$5 per doz.

Everblooming Roses

We have prepared a fine stock of Everblooming Roses for summer planting. They are strong, in 4-inch pots, have been wintered in a cold greenhouse, and are just starting into strong growth and flower. The varieties are a selection of the very best.

Mrs. Aaron Ward, Maman Cochet (white), Richmond, Hermosa, Helen Gould, White Killarney, Marie Guillot, Baby Crimson Rambler. 30 cts. each, \$3 per dozen.

Climbing American Beauty Rose

A new Rose of great merit. A cross between American Beauty and an unnamed seedling; color a rosy crimson, similar to its popular parent, and with the same exquisite fragrance, a quality rarely found in climbing Roses. The plant is of strong habit of growth, making shoots from 10 to 15 feet in one season, and as hardy as an oak. The flowers are from 3 to 4 inches in diameter, of fine form, and are produced in great profusion, not only in May and June, but there is a fair sprinkling of flowers throughout the growing season. We offer strong, 5-inch pot-plants, 75 cts. each.

Rosa spinosissima

Rosa spinosissima

We have again succeeded in getting a stock of this rare and exquisitely beautiful single hardy Rose. In our opinion it is one of the most beautiful things on earth, and is surpassed only by the Cherokee Rose of the South, which is not hardy in our climate. This Rose grows to 4 to 5 feet, compact and bushy in habit, and in June is covered with large, single, yellowish white flowers of indescribable beauty. Planted in groups in the shrubbery, it produces an effect to which no description can do justice. 35 cts. each, \$3.50 per doz.

ELLIOTT NURSERY

J. WILKINSON ELLIOTT

Magee Building, 336 Fourth Avenue

PITTSBURG, PA.

Prices of Grass Seeds

We can supply the very best quality of Mixed Lawn Grass Seed for \$3.25 per bushel. This is exactly the same quality of seed that is usually sold for \$5 per bushel as Central Park Mixture, or under some other fancy name. Grass seed weighs only 14 pounds per bushel and can be shipped inexpensively by express. We do not supply less than one-half bushel. Special prices quoted for large quantities. Grass seed is sold by weight, 14 pounds for a bushel; but 14 pounds of clean grass seed will not fill a bushel. Grass seed can be sown advantageously in the fall, preferably in September. Prices: $\frac{1}{2}$ bushel, \$1.85; bushel, \$3.50; 10 bushels, \$3.25 per bushel; 25 bushels or over, \$3 per bushel. Small quantities shipped from here; large quantities from Cincinnati.

Special Offer of Ornamental Flowering Shrubs

SHIPPED FROM STATION NEAR PITTSBURG

We want to encourage the planting of shrubs. To be effective they should be planted in masses, but when dealers or nursery-men ask fifty cents each for easily grown shrubs there is not much encouragement to plant them freely. We have made arrangements by which we can supply our customers with well-grown shrubs in the best varieties at the extremely low prices quoted below, but in every instance the selection of varieties must be left to us; however, in ordering, if it is stated that certain shrubs are not wanted, they will not be sent. We guarantee these shrubs to be satisfactory in both quality and variety.

SPECIAL OFFER A.—50 shrubs in fine assortment of 15 varieties, \$7. | **SPECIAL OFFER B.**—100 shrubs in fine assortment of 20 varieties, \$12.

OUR GENERAL CATALOGUE, containing full descriptive price-list of Trees, Shrubs, Hardy Plants, Roses, Rhododendrons, Azaleas, and everything desirable for the Lawn or Garden, will be sent free on request

Special Offer of Hardy Plants in Variety.

The plants in the following collections will be of the best and most desirable varieties and the plants of the best quality, but in every instance the selection of varieties is to be made by us; but if purchasers will state the things they have, or don't wish, these will not be included in the selection. Sometimes people write asking for a list of the plants contained in these collections. This cannot be given, so please save us the unpleasantness of refusing by not asking for it.

Special Offers of the Garden Magazine

No. 1. The Garden Magazine for one year, and the beautiful book "A Plea for Hardy Plants," will be sent postpaid for \$1.50, the price of the book alone.

No. 2. To any order for plants, bulbs or shrubs, amounting to \$1 or more, a year's subscription to **The Garden Magazine** may be added for \$1.

No. 3. 12 Choice Hardy Plants, assorted, our selection of varieties, and **The Garden Magazine** for one year, will be sent for \$2.

No. 4. 12 Choice Aquilegias, in six finest varieties, our selection, and **The Garden Magazine** for one year, will be sent for \$2.

No. 5. 12 Choice Hardy Asters, best varieties, our selection, and **The Garden Magazine** for one year, will be sent for \$2.

No. 6. 12 Hardy Sunflowers (Helianthus), best varieties, our selection, and **The Garden Magazine** for one year, will be sent for \$1.75.

THE GARDEN MAGAZINE is the best garden paper ever published. Our customers can find nothing else so helpful

LANDSCAPE GARDENING

THE majority of American suburban grounds are laid out and planted without the aid of professional advice. The result is almost always unsatisfactory, although often the expenditure would have secured most beautiful results if directed by skilled advice. I do landscape gardening—do it for people of exacting taste, to whom I refer. I make the plans, with estimates, purchase the stock necessary and superintend the work. I do any one or all of these things, satisfactorily as to results, moderately as to cost. For small grounds I can make satisfactory plans if furnished with a plat drawn to scale. For large grounds, and where extensive improvements are desired, a personal visit would be necessary and can be arranged for on reasonable terms. I can make no plans during the month of April.
